REPORT

ON THE

INTERNAL TRADE OF BENGAL

FOR THE YEAR 1883-84.

CHAPTER I.

EXPLANATION OF THE SYSTEM OF REGISTRATION.

No change was made during the year in the system which came into force in 1878-79 of registering the internal trade of Bengal.

Registration of rail-borne traffic.

2. The new system of registering rail-borne traffic, which came into effect in Bengal from the commencement of the year under report, worked satisfactorily throughout the year, and the results have already been published quarter by quarter. The statistics of this trade for the whole year are embodied in this report. In their Resolution dated the 28th January 1884, the Government of India laid down certain instructions for the tabulation and publication of the rail-borne traffic; but these orders are intended to apply to the returns for the current official year.

Registration of inter-provincial road traffic.

3. A recommendation was made to the Government of India by the Statistical Conference which was convened in Calcutta in December last, that as the rail-borne trade of each province with other British provinces is already registered, it is important to supplement this with some knowledge of the inter-provincial road traffic, and it was suggested that this knowledge might be easily obtained by periodically registering the traffic on the main roads by means of small moveable establishments. It was not thought to be necessary to maintain registering posts simultaneously on all the roads, but merely to bring the traffic of each main road leading from one province to another under registration at intervals of five or ten years. This proposal seemed to the Government of India to be one which might be carried out in most provinces with very little expense and trouble. So far as Bengal is concerned, orders have been issued for the registration of the road traffic between the North-Western Provinces and Bengal at the Karmnasa bridge, in the district of Shahabad. There is, moreover, a large amount of river traffic carried on between these two provinces, and arrangements are being matured, in communication with the Government of the North-Western Provinces, to effect the registration of this traffic also, so as to intercept the entire inter-provincial traffic between the two provinces. The Government of Madras has also been addressed by the Government of Bengal on the subject of the registration of the road traffic between Orissa and that presidency. The road traffic between the Chota Nagpore Division and the Central Provinces

is not of sufficient importance to call for special arrangements. There is no road traffic between the Chittagong Division and British Burmah.

Registration of steamer traffic.

4. As heretofore, the statistics of trade carried by inland steamers along the Brahmaputra and Megna rivers have been obtained from the records of the India General Steam Navigation Company and the Rivers Steam Navigation Company. The traffic statements for the past year also include the statistics of trade carried by the steamers belonging to the Assam Railways and Trading Company, Limited. The steamers of this company have, however, ceased running to Calcutta since April last, and now ply only on the river Brahmaputra between Debrugarh and Goalundo. The acknowledgments of the Lieutenant-Governor are due to the Agents of these Companies for the courtesy with which they have always placed their books at the disposal of Government. The statistics of the trade for 1883-84 carried by the steamers of the Eastern Bengal Railway along the Brahmaputra and Megna rivers have, as usual, been furnished by the Company, and are published in this report. The registration of the boat traffic between Bengal and Assam is at present effected at Bhoyrub Bazar and Dhubri under the orders of the Chief Commissioner of Assam, and it is proposed to publish the statistics of this traffic in the quarterly returns of rail-borne traffic off Bengal, commencing from the current official year.

Classification of commodities.

5. The classification of commodities followed last year in registering the rail-borne traffic was in accordance with the revised list which was prescribed by the Government of India in May 1883. Opportunity was, however, taken of the meeting of the Statistical Conference to revise that list, so as to confine it to commodities in which the trade is of real commercial importance. The revised list was received from the Government of India with their resolution referred to in paragraph 2, and has been introduced in Bengal from the 1st April last.

Valuation of articles.

6. In their Resolution of January last quoted above, the Government of India observed that "though absolute unformity in this matter [valuation of articles] may be impossible, one or two general principles can be laid down. For certain classes of goods, such as cotton manufactures or ammunition, the value assigned must be more or less arbitrary. But for the great bulk of raw products, a fairly accurate standard of prices can be obtained from the rates ruling in the chief marts, and it is very desirable that these should be periodically ascertained by means of careful inquiries through a trustworthy agency. In the case of the former class of goods, the inquiry need not be so elaborate, but the values adopted in the different provinces should, as far as possible, be uniform, so as to render it possible to utilize them in instituting a comparison between the trade of one province and that of another." A revised valuation list of articles of trade has accordingly been forwarded to the local officers concerned for adoption from the 1st April last, and they have been requested to report the average wholesale prices of certain articles once a quarter, of others once every six months, and of the rest once a year. The statement appended to this report, showing, for each chief staple, the average wholesale value which ruled in Bengal during the year, has been compiled from quarterly returns received from the local officers of 12 selected districts. It will be observed that the values adopted for the year's report are in some cases greatly in excess of those taken for past years. The divergence is due to the fact that in previous years fixed values were assigned to certain articles, whereas in the year under review the average wholesale prices have been taken. For instance, in the case of "horses, ponies, and mules," a uniform rate of Rs. 75 per head was adopted in the trade reports since 1879-80, but according to the average prices quoted by the local officers during the past year, this valuation has been raised to Rs. 120 per head. Similarly, the average prices of "spices of all sorts," which were formerly valued at Rs. 7 per maund, have now been taken at Rs. 41 per maund; while in the case of "vegetables, fruits, and nuts," the average price per maund during 1883-84 was as high as Rs. 11-8 against the old rate of Rs. 2 per maund. The fluctuations observable in the prices of other articles may be explained in the same way. The average prices which

prevailed in Bengal during the past year for the principal agricultural staples, are compared below with those of 1882-83:—

	Price per maund.		Increase.	Decrease.

The marked rise in the price of rice, husked and unhusked, was the result of short crops throughout a large part of the province.

TRADE ALONG THE CHIEF ROUTES.

TRAFFIC ALONG THE NUDDEA RIVERS.

The total amount of traffic carried along the Nuddea rivers, namely the Bhagiruthee, the Jellinghee of which the Bhayrub is a branch, and the Matabhanga, during the past three years, is shown in the following statement:—

* From November 1882 to March 1883.

2. The aggregate quantity carried last year by this route showed an increase of 4,63,502 maunds, or 4·93 per cent. as compared with 1882-83, but a decrease of 13,41,782 maunds, or 11·97 per cent. as compared with 1881-82. Both the down and the up traffic showed an improvement during the year, the increase in the former having amounted to ·45 per cent., and in the latter to 20·52 per cent. as compared with the previous year. The condition of these rivers, however, is still far from satisfactory. The Collector of Tolls, Bhagiruthee river, writes:—

"The traffic only commenced in the middle of July in this as in the previous two years, and the river became unfit for navigation, except for the very smallest boats, in the beginning of October, so that the heavy traffic passed during two months and a half instead of four as in ordinary years."

Regarding the Jellinghee route, the Collector of Tolls writes:—

"The traffic on the Jellinghee river has been more unfavourable than the last year. The toll realized has been Rs. 57,572, against Rs. 61,366 in the preceding year, showing a decrease of Rs. 3,854, caused by the bad state of the river."

As regards the Matabhanga river, it is remarked that the "traffic generally was more satisfactory than in the preceding year, although the condition of the river during the busy months was less favourable, there being considerably less water, particularly in October, in the beginning of which there was a most unusual and rapid fall in the river."

3. The most important items of trade which contributed to the increase in the downward traffic of the past year, as compared with 1882-83, were wheat (2,20,678 maunds), raw jute (1,13,972 maunds), linseed (1,04,692 maunds), gram and pulse (79,357 maunds), and tobacco (12,427 maunds). On the other hand, the staples which showed a marked decrease were gunny-cloth (844,844 pieces)

mustard-seed (1,57,685 maunds), miscellaneous spring crops (1,38,296 maunds) rice (1,07,625 maunds), stone and marble (60,081 maunds), and refined sugar (29,928 maunds). In the upward trade, the largest increase will be found in coal (1,40,195 maunds), paddy (95,400 maunds), rice (43,601 maunds), salt (66,306 maunds), and gunny-cloth (43,149 pieces); and the largest decrease in gunny-bags (58,557 pieces), and in iron and its manufactures (18,178 maunds).

4. The following statement shows the number of laden boats the cargoes of which were registered during the past three years:—

* Piece-goods, mats, and manufactures of silk are shown according to value in rupees.

The details of the Calcutta trade which are shown in the foregoing statement are considered elsewhere in this report. The remarks in this section relate to the fluctuations in the intermediate traffic along this route.

6. *Jute, raw.*—Under this head an increase is shown of 1,13,972 maunds as compared with 1882-83, and of 2,95,473 maunds as compared with 1881-82. The amount of jute sent last year to Calcutta was 13,04,833 maunds, and to Bhuddressur 2,99,840 maunds. Practically the whole of the latter quantity was supplied by Doolalgunge in Purneah (2,98,501 maunds).

7. *Gunnies.*—The result of the past year's registration exhibited a decrease of 388,672 bags on the trade of 1882-83, and of 987,914 bags on that of 1881-82. The number sent to Calcutta during the past year was 814,750 bags, and to other places 244,843 bags, of which Bhuddressur imported 240,950, chiefly from Doolalgunge in Purneah.

8. *Wheat.*—There was an increase of 2,20,678 maunds in the quantities registered during the past year as compared with 1882-83, but a decrease of 1,68,581 maunds is shown when compared with 1881-82. The amount of wheat carried by this route forms about a tenth part of the total imports into the Calcutta market. The East Indian Railway, which is in direct competition with the Bhagiruthee river, carried a little over 89 per cent. of the total imports, while the Nuddea rivers intercepted a little over 10 per cent. Out of the total supply during the past year, Calcutta imported 11,44,163 maunds, and the remainder (14,718 maunds) was distributed among the different marts in Hooghly (12,952 maunds), Moorshedabad (766 maunds), Nuddea (651 maunds), and other places (349 maunds).

9. *Gram and pulse.*—This trade rose from 6,99,279 maunds in 1881-82 to 7,80,284 maunds in 1882-83, and 8,59,641 maunds in 1883-84. The quantity shipped for Calcutta by this route was 25·45 per cent. of the total imports,

against 46·01 per cent. attracted to the East Indian railway. After deducting the supply sent to Calcutta, there remained 52,108 maunds, out of which 30,461 maunds were consigned to the different marts in Hooghly, 10,801 maunds to Burdwan, 8,256 maunds to Nuddea, 2,341 maunds to Moorshedabad, and 249 maunds to the 24-Pergunnahs.

10. *Other spring crops.*—There was a large decrease under this head, the total quantity registered having been 1,38,296 maunds below the trade of 1882-83, and 2,38,252 maunds below that of 1881-82. This trade for all practical purposes was with Calcutta only.

11. *Rice and paddy.*—The decrease in the rice trade amounted to 1,05,311 maunds as compared with 1882-83, and to 6,09,914 maunds when compared with 1881-82, as shown below—

The supply sent to Calcutta during the year was 5,27,078 maunds, while that which went to other places was 1,17,771 maunds. The distribution of the latter quantity was as follows:—

The rice trade was affected during the year under review by short crops and high prices. The amount of rice carried downwards by this route represented only 3·93 per cent. of the total import traffic of Calcutta in this article.

12. *Hides.*—The imports of hides numbered 35,850 pieces, against 36,825 pieces in 1882-83, and 40,087 pieces in 1881-82. The whole of the supply was

despatched to Calcutta. The average annual imports of hides into Calcutta by all routes during the past three years numbered 6,450,494 pieces, of which 3,669,168 pieces were carried by the East Indian Railway, against 37,221 pieces carried along the Nuddea rivers. The rest followed other routes.

13. *Saltpetre.*—There was very little change in the figures of the past year as compared with 1882-83, but a decrease of 7,070 maunds is observed when compared with 1881-82. The total imports into Calcutta by all routes amounted to 7,56,350 maunds, of which 7,44,135 maunds were brought by the East Indian Railway, 12,212 maunds by boats, and only 3 maunds by road.

14. *Other saline substances.*—The total quantity fell off from 1,50,059 maunds in 1881-82 to 1,05,539 maunds in 1882-83, and 89,918 maunds in 1883-84. This traffic was entirely with Calcutta, with the exception of 2,176 maunds, which were sent to different marts in the Moorshedabad, Nuddea, Jessore, and Burdwan districts.

15. *Linseed.*—The gross weight of linseed carried was 10,47,938 maunds, being 1,04,692 maunds in excess of the preceding year's trade, and 2,37,408 maunds below that of 1881-82. Of the total quantity, 10,29,303 maunds were shipped for Calcutta, and of the remainder, 14,380 maunds were sent to Bhuddressur, which obtained its supply from Doolalgunge and Hanskhali. Last year the total imports of linseed into Calcutta by all routes amounted to 58,59,341 maunds, 72·59 per cent. of which was carried by the East Indian Railway, while the Nuddea rivers route contributed 17·57 per cent.

16. *Mustard-seed.*—This trade has shown a steady decline from 8,95,305 maunds in 1881-82 to 5,31,382 maunds in 1882-83, and 3,73,697 maunds in 1883-84. The supply sent to Calcutta during the year was 3,53,807 maunds, and the consignments to other places were 19,890, as detailed below:—

Last year the quantity carried to Calcutta by this route was 10·00 per cent. of the total imports by all routes, while the percentage brought by the East Indian Railway was 76·30.

17. *Other oilseeds.*—The falling off under this head amounted to 9,591 maunds as compared with 1882-83, and to 1,83,426 maunds as compared with 1881-82. The quantity brought to Calcutta was 1,73,533 maunds, and to other districts 374 maunds.

18. *Silk, raw.*—The total quantity registered was 408 maunds, against 1,224 maunds in 1882-83, and 1,554 maunds in 1881-82. The largest portion of the year's supply was consigned to the Moorshedabad district, which imported 271 maunds, while Calcutta received only 137 maunds.

19. *Silk, manufactured.*—The total value of manufactured silk goods carried downwards during the year was almost the same as in the previous year, but there was an increase of Rs. 8,000 over the figures of 1881-82. This, however, was all local traffic between Shibgunge in Maldah and Khagra and Baloochur in the Moorshedabad district.

20. *Stone and marble.*—The total quantity amounted to 3,28,936 maunds, against 3,89,017 maunds in 1882-83, and 2,11,059 maunds in 1881-82—almost the whole quantity being sent to Calcutta.

21. *Sugar, drained.*—The quantities carried downwards fell off from 96,754 maunds in 1882-83 to 66,826 maunds in 1883-84, but the figures of the past year showed an advance of 46,375 maunds over those of 1881-82. The supply consigned to Calcutta was 63,374 maunds, and the remainder, 3,452 maunds, was disposed of in marts in the districts of Moorshedabad, Burdwan, and Hooghly; the chief places of supply were Ghazipore, Goruckpore, Moorsheda-bad, and Sarun.

22. *Sugar, undrained.*—The increase noticed in the last report was still further extended during 1883-84, the total quantity having amounted to 54,668 maunds, against 52,135 maunds in 1882-83, and 37,574 maunds in 1881-82. The quantity imported into Calcutta during the past year was 35,099 maunds, and the despatches to other places aggregated 19,569 maunds, the bulk of which was distributed between, viz. Moorshedabad (6,593 maunds) and Burdwan (5,949 maundst).

23. *Tobacco.*—The otal quantity rose from 1,54,928 maunds in 1881-82 to 1,88,926 maunds in 1882-83, and 2,01,353 maunds in 1883-84. Out of the total trade during the past year, Calcutta received 56,659 maunds and other districts 1,44,694 maunds. The details of the latter amount are as follows:—

24. *Timber.*—The quantity registered was 94,268 maunds, which showed a decrease of 3,082 maunds as compared with 1882-83, and of 1,19,150 maunds as compared with 1881-82. Almost the whole of this was sent to Calcutta.

25. *Up-stream traffic.*—The following statement shows the trade in the principal articles carried up stream during the past three years:—

The aggregate quantity carried last year to, and from, Chittagong by this route showed a decrease of 6,20,600 maunds, or 24·77 per cent. as compared with 1882-83, and of 1,65,703 maunds, or 8·08 per cent. as compared with 1881-82. The money value of the traffic showed a falling off of Rs. 7,24,557, or 13·92 per cent. on the returns of 1882-83, and an increase of Rs. 4,45,557, or 10·94 per cent. on those of 1881-82.

33. In the import trade, the largest decrease as compared with 1882-83, was in rice (5,44,759 maunds) and paddy (92,441 maunds), while the articles

which showed the largest increase were cocoanuts (56,065 in number), provisions (9,590 maunds), and oils (1,542 maunds). Under exports, raw cotton showed a decrease of 7,163 maunds in quantity and of Rs. 1,15,523 in value; bamboos showed an increase of 62,290 in number; and undrained sugar and salt a decrease of 7,163 maunds and 3,269 maunds respectively. The following statement shows all the important articles of merchandise registered during the past three years:—

35. The aggregate weight of goods registered during the past year showed an increase of 8,97,203 maunds, or 21·27 per cent. on the returns of 1882-83, and of 14,37,200 maunds, or 39·08 per cent. on those of 1881-82. The downward traffic of the Midnapore canal showed an advance of 1,47,640 maunds, or 7·60 per cent. on the figures of the previous year, and the down traffic of the Hidgellee canal increased during the year by 1,03,059 maunds, or 45·66 per cent. Of the increase in the up-traffic, the Midnapore canal contributed 74,592 maunds, or 7·87 per cent., and the Hidgellee canal 5,71,912 maunds, or 51·88 per cent., as compared with 1882-83. In reporting upon the general condition of the trade on the Midnapore canal, the Executive Engineer, Cossye Division, writes as follows :—

"The increase is chiefly in articles of food and staples of manufacture, and to a less degree in fuel ; but the item 'clothing' shows a decrease probably on account of increased competition with European manufacture. The decrease in the item 'miscellaneous' may account for a portion of the increase in some of the above items. There has been an increase in the tonnage in every range except Nos. IV and V., and this is due chiefly to the restrictions on the size of rafts of timber which it was found necessary to make. The usual method of transporting heavy logs of sâl was to sling them on either side of a large boat, making the navigation of the canal at night especially very dangerous for steamers. The extreme width of a raft allowed in the canal or of a boat with logs slung to it is by the regulations 10 feet, and the rule is now strictly enforced, leading to a falling off in that branch of the traffic which has been to a great extent forced on the roads. The increase in the traffic of the Narainghur channel is satisfactory.

"The steamer service being in the hands of a private company, no statistics with reference to it can be given. The service appears, however, to have prospered and generally given satisfaction. The company have been very willing to adopt any suggestions to ensure the safety of passengers, and have carried on the traffic without accident to life and slight injury to boats.

"It will be evident from the above remarks that the trade on the canal is steadily on the increase, although the actual collections are only Rs. 2,800 in excess of those for the previous year ; but the extension of the steamer service has caused a reduction in the trade and receipts that would otherwise have been shown on the books of the canal."

The Executive Engineer, Balasore Division, offers the following remarks on the traffic on the Hidgellee canal, during the past year :—

"The Hidgellee tidal canal, the only revenue-producing work in the Balasore Division, was re-opened to traffic after silt clearance on the 15th April, and of course continued open during the remainder of the year. There was a considerable increase in traffic over the previous year, the tolls collected being Rs. 62,316 against Rs. 43,694 in 1882-83. The increase was almost entirely in the sub-head 'articles of food,' which in the case of the Hidgellee canal means rice and paddy, the quantity exported showing an increase of 62,531 tons, the total increase being 68,505 tons. Critics of the coast canal frequently say that it is absurd to make a canal to a port like Balasore between which and Calcutta weekly steamers ply ; but the two steamers which come to Balasore have a combined

carrying capacity of only 280 tons; so to carry the 130,283 tons which went last year by the tidal canal towards Calcutta, they would each have to make 465 trips which would take them about 10 years to do; and these steamers are as large as can safely get over the bar and come up the river: even the three large steamers plying between Calcutta and Chandbally would be occupied two years in carrying the same."

36. It will be seen that the increase shown above was spread over all the chief articles of trade. Of all staples, the traffic in rice and paddy showed the largest increase, namely, 4,07,385 maunds and 2,23,464 maunds, respectively, as compared with 1882-83. The other important items which showed an increase were European piece-goods (Rs. 95,031), salt (65,792 maunds), coal (42,078 maunds), vegetables (40,609 maunds), provisions (30,926 maunds), brass and copper (28,675 maunds), timber (22,640 maunds), raw jute (18,123 maunds), undrained sugar (17,835 maunds), gram and pulse (14,518 maunds), and tobacco (13,375 maunds). The articles in which the decrease was most marked were Indian piece-goods (Rs. 5,03,700), Indian twist and yarn (14,324 maunds), gunnies (35,700 bags), mustard-seed (25,950 maunds), hides (25,057 pieces), and raw silk (1,552 maunds). The number of laden boats registered during the past three years was as follows:—

Year.	Midnapore Canal.		Hidgellee Canal.		Total.	
	Down.	Up.	Down.	Up.	Down.	Up.
	No.	No.	No.	No.	No.	No.

43. *Tobacco.*—The total quantity of tobacco was 1,22,819 maunds, against 1,09,444 maunds in 1882-83, and 1,00,320 maunds in 1881-82. The amount of the Calcutta traffic was 1,15,925 maunds, and of the other districts, 6,894 maunds. Of the latter figures, 5,929 maunds represent the local traffic of the Midnapore district, and 965 maunds the trade between Midnapore and Hooghly.

44. *Timber.*—The total trade in timber amounted to 1,17,559 maunds against 94,919 maunds in 1882-83, and 54,581 maunds in 1881-82. The amount of the local trade of the Midnapore district was 63,109 maunds, the supply sent to, and from, Calcutta by this route was 44,672 maunds, while the remainder (9,778 maunds) represents the trade between Hooghly and Midnapore.

TRAFFIC ON THE ORISSA CANALS.

The gross weight of goods carried during the past year was 1,40,180 maunds, or 9·30 per cent. in excess of the previous year's figures, and

6,15,201 maunds, or 59·63 per cent. above those of 1881-82. The Executive Engineer, Brahmini-Byturni Division, writes:—

"The tolls on the canals in this division have been reduced by one-half from 1st December 1883 under the erroneous impression that they restricted the trade of the province. The aggregate amount of receipts from this source in—

which indicates an improvement of 16·72 per cent. over last year, which is less than the progress made in 1882-83 over 1881-82; but this period includes the rains, when trade is comparatively slack.

"Since December 1883, however, during the latter part of the year, the increase has been very considerable, as the following figures will show:—

		Rs.

March and April, before the closure of the canals in May, giving the largest collections. The figures indicate what has been lost by the reduction of the tolls with benefit to no one but the carriers of goods, and what the revival of trade would have brought into the treasury had the tolls been retained."

TRAFFIC ON THE CALCUTTA CANALS.

50. The total quantity and value of the trade which passed along the Calcutta Canals, exclusive of the merchandise which was loaded and unloaded at the Port Commissioners' wharves, were as follows:—

	Quantity of goods registered by weight.			Value of all articles of trade.		
	1881-82.	1882-83.	1883-84.	1881-82.	1882-83.	1883-84.

It will be seen that the aggregate weight of goods during 1883-84 was 9·23 and 2·74 per cent. below the figures of 1882 83 and 1881-82, repectively. The import trade showed a falling off, the figures for the past year having been 5·44 per cent. below those of 1882-83, and 13·17 per cent. below those of 1881-82. Under exports, there was an increase of 8·28 and 8·32 per cent. as compared with the two previous years, respectively.

51. The chief staples in the import traffic which showed the largest decrease during the past year, as compared with 1882-83, were raw jute (13,57,807 maunds), rice (10,80,823 maunds), paddy (90,849 maunds), firewood (53,349 maunds), drained sugar (36,799 maunds), and betel-nuts (23,079 maunds); and the articles which showed the largest increase were miscellaneous provisions (1,08,117 maunds), gram and pulse (67,829 maunds), spices (66,212 maunds), undrained sugar (59,625 maunds), lime and limestone (61,525 maunds), mustard seed (36,720 maunds), and vegetables and fruits (27,822 maunds). As regards exports, the greatest improvement is found in coal and coke (2,72,590 maunds), oils (2,01,681 maunds), European piece-goods (Rs. 1,91,765 in value), and unmanufactured miscellaneous goods (Rs. 3,26,981 in value), while salt showed a decrease of 3,36,524 maunds, paddy of 62,297 maunds, and mustard seed of 59,469 maunds. Detailed statements of this trade will be found among the appendices to this report.

The statistics for the years 1881-82 and 1882-83 refer to the traffic carried by the steamers of the India General Steam Navigation Company and of the Rivers Steam Navigation Company, while the figures for 1883-84 relate to the merchandise carried by these two Companies as well as by the Assam

Railways and Trading Company. Last year the total increase in the quantity of goods carried both ways was ·66 per cent. as compared with 1882-83, and 23·28 per cent as compared with 1881-82. Along the Brahmaputra route, the figures of the downward trip indicate a decrease of 2,66,605 maunds, and those of the upward trip an increase of 1,52,390 maunds, on the trade of 1882-83. The gross increase on the Megna route was 1,42,134 maunds on the returns of the previous year, the advance in the down-trip having been 38,063 maunds, and in the up-trip 1,04,071 maunds.

53. The staples which showed an improvement over the trade of the previous year were:—European piece-goods (Rs. 2,32,538), liquors (Rs. 1,20,017), mustard-seed (32,935 maunds), hides (10,377 pieces), stick-lac (8,966 maunds), iron (4,055 maunds), tobacco (3,978 maunds), salt (1,165 maunds), and India-rubber (557 maunds). On the other hand, the articles which exhibited a marked decrease were raw jute (2,08,193 maunds), tea (21,179 maunds), gram and pulse (14,389 maunds), rice (11,839 maunds), and betel-nuts (2,917 maunds). The following statement shows those articles of traffic which were most largely carried by these routes during the past three years:—

The Calcutta portion of the trade will be explained elsewhere in this report. A brief account is given here of the fluctuations in such items of intermediate traffic as are of importance.

54. *Caoutchouc or India-rubber.*—The total quantity of caoutchouc carried downwards from Assam was 9,574 maunds. After deducting the supply consigned to Calcutta, there remained 1,657 maunds, out of which 1,446 maunds were imported into Goalundo, and 211 maunds into Naraingunge. The chief places which supplied the Goalundo market were Goalpara (736 maunds), Durrung (213 maunds), Seebsagur (204 maunds), Nowgong (149 maunds), and Lukhimpore (144 maunds). Naraingunge received its supply from Chuttuck.

55. *Gram and pulse.*—The total supply sent to Assam was 1,15,755 maunds, of which 1,03,083 maunds were exported from Calcutta, and of the remainder, 10,428 maunds were carried from Serajgunge, 2,100 maunds from Goalundo, and 144 maunds from Naraingunge.

56. *Rice.*—The amount of rice carried to Assam was 3,93,281 maunds. After excluding 76,998 maunds shipped from Calcutta, there remained 3,16,283 maunds, of which Goalundo supplied 1,52,912 maunds, Serajgunge, 1,15,797 maunds, Naraingunge 15,944 maunds, and Kalligunge in Rungpore 1,593 maunds.

TRAFFIC ALONG THE BRAHMAPUTRA AND MEGNA RIVERS, CARRIED BY THE STEAMERS OF THE EASTERN BENGAL RAILWAY.

57. The total quantity and value of the trade carried by the steamers of the Eastern Bengal Railway Company along the Brahmaputra and Megna rivers during the past three years, were as follows :—

The decrease in the gross quantity registered during the past year was 9,51,335 maunds, or 28·32 per cent. as compared with 1882-83, and 8,47,833 maunds, or 26·04 per cent. as compared with 1881-82. The falling off was mainly in the downward trade, the total quantity carried during the year having been 16,57,547 maunds, against 27,54,886 maunds, and 25,68,330 maunds in the proceding two years, respectively. In the upward trade, the figures indicate an increase of 1,46,004 on the returns of 1882-83, and of 62,950 maunds on those of 1881-82.

58. In the downward trade, the articles which contributed most largely to the decrease in the year's traffic, as compared with that of 1882-83 were raw jute (11,03,192 maunds), rice (45,268 maunds), gunnies (3,42,981 bags), raw cotton (9,757 maunds), and Indian tea (5,594 maunds); and the only items which showed a marked advance were hides (102,499 pieces), skins (41,630 pieces), and mustard-seed (62,475 maunds). As regards the up traffic, a large portion of the increase was due to the development of trade in manufactures of leather (Rs. 2,27,080), miscellaneous goods (Rs. 2,52 ,402 maunds), and silk piece-goods (Rs. 88,000). The other articles which showed an increase over the trade of the previous year were metals, oils, coal, and twist and yarn, while salt showed a large decrease of 1,31,823 maunds. The proportion borne by the Calcutta traffic to the total down trade was 92·69 per cent., and to the up trade 97·49 per cent.

59. *Dacca service.*—The aggregate quantity carried by this service shows a decrease of 28·45 per cent. as compared with the total of the previous year, and of 15·86 per cent. as compared with that of 1881-82. The following statement shows the quantity and value of the principal articles of traffic carried during the past two years :—

As regards the down traffic, the staples which showed an improvement over the trade of the previous year were hides (90,319 pieces), skins (42,300 pieces), mustard-seed (7,355 maunds), and manufactures of silk (Rs. 9,700); and the articles in which the largest decrease occurred were raw jute (7,92,550 maunds), rice (44,464 maunds), raw cotton (9,685 maunds), and drugs and medicines (Rs. 5,750). In the up traffic, miscellaneous goods showed an increase of Rs. 2,56,606 in value, manufactures of leather of Rs. 2,10,900, Indian piece-goods of Rs. 1,54,640, and silk manufactures of Rs. 89,000, while there was a decrease under European piece-goods (Rs. 12,55,193), gunnies (18,967 bags), and salt (4,907 maunds).

60. *Serajgunge service.*—The total decrease in the gross weight of goods conveyed by this service amounted to 30·45 per cent. on the figures of 1882-83, and to 38·76 per cent. on those of 1881-82. The abstract below shows the total quantity and value of the principal staples carried during the past two years:—

The articles in which the decrease during the past year as compared with 1882-83 was most marked, were raw jute (3,10,642 maunds), gunny-bags (333,187 pieces), salt (1,26,546 maunds), and European piece-goods (Rs. 3,15,557), while mustard-seed showed an increase of 55,120 maunds, and hides of 12,180 pieces. In 1882-83 the value of drugs and medicines (not intoxicating) was Rs. 68,760, but the returns for the past year show no traffic under this head.

61. *Cachar service.*—The total weight of the trade of 1883-84 carried both ways was 2·73 per cent. over that of the previous year, and 18·21 per cent. below the figures of 1881-82. The following statement shows the principal articles conveyed during the past two years:—

The quantity of Indian tea fell off from 62,908 maunds in 1882-83 to 56,962 maunds in 1883-84. The amount of the up traffic in coal was 11,192 maunds during the past year, and *nil* in 1882-83. The trade in iron showed a small increase of 1,375 maunds on the returns of 1882-83. The trade in European cotton piece-goods showed a decline of Rs. 31,532 in value, as compared with 1882-83. Under drugs and medicines, the figures fell from Rs. 15,090 in 1882-83 to Rs. 7,240 in 1883-84.

STATEMENTS OF BENGAL RAILWAY TRAFFIC.

62. It was explained in the last report that under the orders of the Government of India, arrangements had been made by the Government of Bengal, with effect from the commencement of the official year under report, for the registration of the rail-borne traffic in Bengal carried along the East Indian and the Eastern Bengal Railways and connected lines in accordance with the

system in force in other parts of India. The results of the registration of this trade during the past year have already been published quarter by quarter and the statistics now furnished relate to the traffic of the entire year. Under recent orders of the Government of India, however, the annual returns of this trade will not in future be incorporated in the report on the internal trade of Bengal, but will be published in a separate report.

63. Under the present system of registering rail-borne traffic a province is, as before, divided into "internal blocks," each block containing a group of railway lines and embracing a certain geographical area. Each of the other outlying provinces is regarded as an "external block," and the registration returns are so framed as to exhibit for the province (1) the traffic between each of its internal blocks and all the external blocks separately, and (2) the traffic between each internal and all the other internal blocks separately. The local traffic running between two stations of the same internal block is omitted.

64. The province of Bengal has, for purposes of traffic registration, been divided into the following trade blocks:—

I.—*Behar*, including the Patna division and the districts of Monghyr, Bhagulpore, and the Sonthal Pergunnahs. It is traversed by the following lines of railway:—

(*a*) The East Indian Railway from Chowsa on the west to Pakour and Maijam (both inclusive), on the loop and chord lines, respectively, on the east.
(*b*) The whole Tirhoot system between the Gunduck and the Kosi.
(*c*) The Patna-Gya State Railway.
(*d*) The Bengal and N.-W. line now under construction.

II.—*Western Bengal*, including the Burdwan division, the district of Moorshedabad, and so much of Nuddea as lies west of the Matabhanga and the Hooghly. This tract is traversed by the following lines:—

(*a*) The East Indian Railway from Howrah (not inclusive) to Rajgunge and Seetarampore (both inclusive) on the loop and chord lines, respectively, and also the Seetarampore-Burrakur extension.
(*b*) The Nalhati State Railway.

This block will also include the following lines when they are opened for traffic:—

(*c*) The Central Bengal Railway from Santipore (inclusive) to Bhagwangola.
(*d*) The Tarakessar-Boidyabatty Railway.

III.—*Eastern Bengal*, which includes the districts of the 24-Pergunnahs, Jessore, Khulna, Backergunge, Furreedpore, and so much of the Nuddea district as lies east of the Matabhanga and the Hooghly.

It contains the following lines:—

(*a*) The Eastern Bengal Railway.
(*b*) The Calcutta and South-Eastern Railway and extensions.
(*c*) The Kissengunge and Kotechandpore Railway.
(*d*) The Central Bengal Railway from Ranaghat (inclusive) eastwards.
(*e*) The broad-gauge portion of the Northern Bengal State Railway from Poradah junction to Damukdia on the Ganges.

IV.—*Northern Bengal*, including the whole of the Rajshahye division and the districts of Purneah and Maldah. It is served by the following lines:—

(*a*) The Northern Bengal State Railway and extensions.
(*b*) The Darjeeling-Himalayan Railway.
(*c*) The Kaunia-Dhurla Railway.

V.—*Calcutta*.—This block will include the terminal stations of all lines that converge upon the Presidency town. At present there are three such lines, viz., the East Indian Railway, the Eastern Bengal Railway, and the Calcutta and South-Eastern Railway. The stations included in the block are Howrah, Sealdah, and Chitpore.

65. In addition to the foregoing, two new blocks have also been formed, but as the railways by which they will be served are not yet constructed, no traffic can be registered for them for the present. These blocks are the following:—

VI.—*Dacca*.—This includes the Chittagong division and the districts of Dacca and Mymensingh.

The Dacca-Mymensingh Railway is now under construction. The Eastern Bengal Railway Company run a service of steamers from their terminus at Goalundo (in block III) to Dacca and Naraingunge, and arrangements will no doubt be made for through booking as soon as the new line is opened. When this is done, the fluctuations of traffic will be registered as if the steamer service was an integral part of the railway.

VII.—*Chota Nagpore*.—This is the second new block. It comprises the Chota Nagpore division, and will be traversed by the Nagpore-Burrakar Railway which has been recently surveyed. Orders for the construction of this line have just been received from the Government of India.

66. The gross traffic registered for each of the blocks I to V is divided into two classes, namely (1) external and (2) internal. The former head comprises the trade of Bengal with places outside the province, and the latter includes the traffic passing from one registration block to another within the province. The external trade of Bengal is carried on entirely by the East Indian Railway and connected lines, and it has been found possible, with the aid of the old traffic returns received from the Audit Office at Jamalpore, to furnish comparative figures of trade for 1882-83 and 1881-82 for the whole province, but not for each block separately, as under the re-organized plan of registration the boundaries of some of the blocks were changed during the year; but in the case of the internal trade which is carried on by the Eastern Bengal Railway and connected lines, it is impossible to institute any such comparison with previous years, the registration having only commenced from the beginning of the year under report.

External trade of Bengal.

67. The total quantity of the external trade of Bengal with other provinces during the past year, as compared with the totals of the two previous years, was as follows:—

The aggregate quantity of the trade of the past year carried both ways showed a considerable increase of 20·48 and 25·22 per cent., as compared with the totals of the two previous years, respectively. The advance in the import traffic was 41,86,874 maunds over the figures of 1882-83, and 64,96,738 maunds over those of 1881-82. As regards the export traffic, there was an increase of 10,93,863 maunds on the returns of 1882-83, but a decrease of 2,39,808 maunds as compared with those of 1881-82.

68. The articles which contributed most largely to the increase in the import trade of the past year, as compared with that of the preceding year, were wheat (27,37,537 maunds), gram and pulse (7,94,637 maunds), linseed (5,12,393 maunds), miscellaneous food-grains (3,06,778 maunds), and raw cotton (2,55,159 maunds); and the staples which showed a marked decrease were mustard-seed (5,10,238 maunds), miscellaneous oilseeds 2)8'0,289 maunds), and stone (1,74,188 maunds). In the export traffic, the staples which showed an improvement over the figures of the previous year were iron (10,52,013 maunds), coal (5,39,858 maunds), and gunnies (2,31,572 maunds); and the articles in which the largest decrease occurred were rice (2,79,750 maunds), fibres manufactured (1,15,618 maunds), and salt (1,13,568 maunds). The chief staples of traffic carried each way during the past three years, are shown in the following statement:—

69. *Coal, public.*—The total quantity exported from Bengal during the year was 46,67,175 maunds against 41,27,317 maunds in 1882-83, and 43,50,499 maunds in 1881-82. The exports from the Behar block, which includes the large coal mines at Kurharballi and Giridhi, amounted to 39,18,870 maunds. The quantity sent from the Western Bengal block, which contains the great Raneegunge coal-field amounted to 7,37,372 maunds. The chief Indian consumers of Bengal coal outside Bengal were the North-Western Provinces (40,25,556 maunds), and the Punjab (5,88,901 maunds).

According to the returns of the internal trade, the quantity of coal carried downwards was 1,48,99,027 maunds, of which 1,45,12,563 maunds were derived from Western Bengal. The entire supply was despatched to Calcutta with the exception of 16,875 maunds which were sent to other blocks. The above figures do not include the coal which is turned out by the East Indian Railway Company for its own use from its own collieries.

70. *Cotton, raw.*—The imports of raw cotton into Bengal were 11,13,940 maunds against 8,58,781 maunds in 1882-83, and 11,03,341 maunds in 1881-82. Out of the last year's supply, Calcutta received 9,78,623 maunds, Behar 1,15,964 maunds, and Western Bengal 19,353 maunds. The contribution from the North-Western Provinces and Oudh was 10,55,406 maunds, from the Punjab 55,770 maunds, and from other places 2,764 maunds.

71. *Cotton twist and yarn, European.*—The total quantity exported last year was 65,926 maunds, against 66,443 maunds in 1882-83, and 60,128 maunds in 1881-82. Practically the whole amount was consigned from Calcutta, which despatched 65,884 maunds. The destination of the exports was to the North-Western Provinces and Oudh (36,035 maunds), the Punjab (21,462 maunds), Central Provinces (6,082 maunds), and to other places (2,347 maunds).

The quantity of European twist and yarn sent to the various internal blocks of Bengal from Calcutta amounted during the past year to 57,833 maunds.

72. *Cotton Piece-goods, European.*—The total exports under this head amounted to 6,74,928 maunds, valued at Rs. 4,85,94,816, against 6,59,334 maunds valued at Rs. 4,94,50,050 in 1882-83, and 6,82,594 maunds valued at Rs. 5,11,94,550 in 1881-82. The amount of piece-goods exported from Calcutta was 6,74,443 maunds valued at Rs. 4,85,59,893. The distribution of the exports amongst the different provinces was as follows:—North-Western

Provinces and Oudh 4,37,164 maunds valued at Rs. 3,14,75,808; the Punjab 2,17,023 maunds valued at Rs. 1,56,25,656; the Central Provinces 12,526 maunds valued at Rs. 9,01,872; and other places 8,215 maunds valued at Rs. 5,91,480. During the past year the proportion of the Calcutta traffic to the total imports of cotton piece-goods into the North-Western Provinces and Oudh was 69·57 per cent. Similar information regarding the Punjab and the Central Provinces is not at present available.

Besides the above figures which merely show the trade with other provinces, European piece-goods valued at Rs. 6,64,60,464 were exported from Calcutta during the past year for consumption in other parts of Bengal.

73. *Cotton Piece-goods, Indian.*—The weight of Indian piece-goods sent to Bengal was 21,943 maunds valued at Rs. 24,13,730, against 21,759 maunds valued at Rs. 19,58,310 in 1882-83, and 21,486 maunds valued at Rs. 19,33,740 in 1881-82. The consignments to Calcutta were 10,653 maunds (Rs. 11,71,830), to Behar 9,599 maunds (Rs. 10,55,890), and to other places 1,691 maunds (Rs. 1,86,010). The North-Western Provinces and Oudh with an export of 20,080 maunds (Rs. 22,08,800) supplied the largest quantity; the Punjab supplied 1,588 maunds (Rs. 1,74,680), and other places 275 maunds (Rs. 30,250).

74. *Indigo.*—The total quantity of indigo carried down to Bengal rose from 53,281 maunds in 1881-82 to 66,068 maunds in 1882-83, and 74,145 maunds in 1883-84. The imports during the year comprised, 73,965 maunds despatched from the North-Western Provinces and Oudh, and 162 maunds from the Punjab. Practically the whole of these supplies was sent to Calcutta which received 74,119 maunds.

The internal trade returns show that 74,464 maunds of indigo were sent to Calcutta during the past year. Of this quantity, 65,541 maunds were despatched from Behar.

75. *Turmeric.*—The total exports amounted to 47,746 maunds, against 26,562 maunds in 1882-83, and 29,983 maunds in 1881-82. The supply despatched from Calcutta was 26,347 maunds, and of the remainder, 21,059 maunds were exported from Behar, the chief consumers having been the North-Western Provinces and Oudh (33,738 maunds) and the Punjab (11,641 maunds).

76. *Fibres manufactured.*—The export trade under this head rose from 3,16,399 maunds in 1881-82 to 3,92,620 maunds in 1882-83, and 5,08,574 maunds in 1883-84. Of this last quantity, 3,44,004 maunds were sent from Calcutta, 1,26,226 maunds from Western Bengal, and 38,341 maunds from Behar, the chief places of destination having been the North-Western Provinces and Oudh (3,32,849 maunds), and the Punjab (1,42,877 maunds).

77. *Food-grains other than wheat.*—The total quantity carried during the past three years, was:—

	Imports.			Exports.

The imports showed an advance of 11,26,354 maunds as compared with 1882-83, and of 12,49,699 maunds as compared with 1881-82, while in the exports there was a falling off of 3,70,797 maunds, and 17,34,432 maunds when compared with the figures of the two previous years, respectively. The sources of supply, and the places of destination, in respect of the import trade during the past year, were:—

Imports into—	Mds.	Imports from—	Mds.
Calcutta	7,39,933	North-Western Provinces and Oudh	11,60,381

Other places	2	Other places	19
Total ...	13,21,755	Total ...	13,21,755

As regards exports, the largest consignments were from Western Bengal (5,04,359 maunds); next came Calcutta (97,508 maunds), and then Behar (52,760 maunds). Out of this supply, the North-Western Provinces and Oudh received 5,38,498 maunds, the Punjab 70,469 maunds, and other places 45,660 maunds.

The quantity of these grains sent to Calcutta from the other internal blocks was 16,39,159 maunds, of which 9,06,901 maunds were received from the Behar block.

78. *Wheat.*—The imports of wheat during the past year were 72,56,557 maunds, showing an increase of 27,37,537 maunds, or 60·58 per cent. on the returns of 1882-83, and of 23,31,762, maunds, or 47·35 per cent. on those of 1881-82. The details of this trade are as follows:—

79. *Hides.*—This is an article of down traffic, and the quantity so carried during the past year was 1,52,970 maunds, against 1,57,862 maunds in 1882-83, and 1,98,817 maunds in 1881-82. Last year the whole of the imports was brought down to Calcutta, with the exception of 13,942 maunds imported into Behar, and 7 maunds into Western Bengal. According to numbers the figures of the past three years under imports stand thus:—1883-84, 1,223,760 pieces; 1882-83, 1,262,896; and 1881-82, 1,590,536. The North-Western Provinces and Oudh, with an export of 1,09,997 maunds (879,976 pieces), supplied the largest quantity. The contribution from the Punjab amounted to 40,426 maunds (323,408 pieces), and from other provinces to 2,547 maunds (20,376 pieces).

The quantity of hides imported into Calcutta from the several internal trade blocks during the year under review was 5,62,700 maunds.

80. *Shell-lac.*—The importation of shell-lac into Bengal from the Upper Provinces amounted during the past year to 88,611 maunds, or 110 maunds over the trade of 1882-83, and 16,471 maunds over that of 1881-82. This trade was carried on between Calcutta and the North-Western Provinces and Oudh.

81. *Liquors.*—The total export traffic registered under this head during the past three years, was as follows:—

	1881-82.		1882-83.		1883-84.

Total ...	34,509	45,334	36,554	9,49,754	9,54,852	20,19,610

There was very little change in the import traffic during the year under review. The exports, however, showed a considerable increase, which is due chiefly to large quantities of iron having been carried to the Upper Provinces from Calcutta for the railways at present in course of construction. The places from which the supplies were drawn, and those to which they were sent during the past year, are shown below:—

Besides these figures which relate to the trade with other provinces, the quantity of metals despatched to the internal blocks from Calcutta was—brass and copper 67,476 maunds, iron 10,32,484 maunds, and other metals 41,330 maunds: altogether 11,41,290 maunds.

83. *Oils*—The total quantity carried to up-country districts was 45,288 maunds, against 56,803 maunds in 1882-83, and 45,995 maunds in 1881-82. Practically the whole supply was consigned from Calcutta, the chief importing provinces being the North-Western Provinces and Oudh (34,102 maunds) and the Punjab (9,021 maunds).

The returns of the internal trade showed an exportation of 1,11,131 maunds of mineral oil from Calcutta for consumption in the interior of Bengal.

84. *Opium.*—The quantity of opium imported into Bengal from other provinces was 58,720 maunds against 66,845 maunds in 1882-83, and 40,713 maunds in 1881-82. The whole supply came from the North-Western Provinces and Oudh, of which Calcutta imported 54,921 maunds, and Behar 3,799 maunds.

During the past year 35,737 maunds of China opium were carried to Calcutta from Behar.

85. *Ghee.*—The imports of ghee amounted to 1,17,667 maunds, against 1,01,802 maunds in 1882-83, and 1,08,999 maunds in 1881-82. The bulk of the traffic was between Calcutta and the North-Western Provinces, as appears from the following figures:—

The export trade showed a decrease of 13,568 maunds as compared with the figures for 1882-83, but a large increase of 1,47,620 maunds as compared with those of 1881-82. The exports were almost entirely to the North-Western Provinces and Oudh, where 1,82,942 maunds were despatched, of which 1,80,208 maunds were sent from Calcutta.

According to the returns of the internal trade, 39,24,596 maunds of salt were exported from Calcutta for consumption within Bengal.

87. *Saltpetre.*—The total quantity of the down traffic was 2,27,051 maunds, against 2,05,443 maunds in 1882-83, and 2,18,245 maunds in 1881-82. Last year the supply imported into Calcutta from the North-Western Provinces and Oudh was 1,39,321 maunds, and from the Punjab 87,401 maunds.

Last year the quantity of saltpetre sent to Calcutta from the Behar block was 5,17,138 maunds.

88. *Other saline substances.*—These are both imported and exported. The total traffic during the past year amounted to 1,12,623 maunds, against 95,046 maunds in 1882-83, and 1,33,873 maunds in 1881-82. The consignments to Calcutta from the North-Western Provinces and Oudh were 39,752 maunds, while on the other hand Behar supplied 47,684 maunds to the North-Western Provinces and Oudh, and 11,099 maunds to the Central Provinces.

89. *Oilseeds.*—The aggregate quantity of oilseeds imported during the past three years, was as follows:—

	1881-82.	1882-83.	1883-84.
	Mds.	Mds.	Mds.
Linseed	4,74,714	7,87,037	12,99,430

It will be seen that the gross weight of goods conveyed during the past year was 5,80,860 maunds, or 11·34 per cent. less than the trade of 1882-83. In the down traffic there was a decrease of 6,91,985 maunds compared with 1882-83, and a slight increase of 30,649 maunds compared with 1881-82. The upward traffic showed an increase of 1,11,125 maunds on the returns of 1882-83, and of 2,44,532 maunds on those of 1881-82.

138. Of the principal articles comprised in the downward traffic, those in which the decrease during the past year, as compared with 1882-83, was most marked were, raw jute (7,19,757 maunds), gunnies (4,795,140 bags), rice (49,481 maunds), hides (40,840 pieces), and firewood (39,307 maunds); and the staples which showed the largest increase were paddy (2,05,477 maunds), tobacco (52,752 maunds), and mustard seed (26,075 maunds). On the other hand, the chief fluctuations in the upward traffic were a decrease of Rs. 6,26,424 worth of European piece-goods, 30,975 maunds of mustard seed, and 28,532 maunds of iron, against an increase of 65,845 maunds under salt, 35,752 maunds under rice, and 64,890 bags under gunnies. The following statement shows the quantities and values of the principal staples, during the past three years:—

No details are available under these three heads in the returns of previous years.

147. *Iron and its manufactures.*—The weight carried upwards was 74,625 maunds, or 28,532 maunds below the totals of 1882-83, and 31,205 maunds below those of 1881-82.

147*a*. *Salt.*—The trade in salt showed a great improvement, the total quantity of the upward traffic having been 5,45,874 maunds, against 4,80,029 maunds in 1882-83, and 4,36,011 maunds in 1881-82. The supply consigned to Northern Bengal by rail during the past three years, as compared with the quantities carried by country boats during those years, is shown in the following table:—

149. *Tea, Indian.*—The total quantity carried downwards was 1,60,082 maunds, against 1,58,438 maunds in 1882-83, and 1,18,222 maunds in 1881-82. The consignments to Calcutta were 1,28,181 maunds, against 1,53,870 maunds in 1882-83, and 1,18,222 maunds in 1881-82.

150. *Tobacco.*—The down traffic under this head rose from 2,49,953 maunds in 1881-82 to 3,36,022 maunds in 1882-83, and 3,88,774 maunds in 1883-84. Of the latter amount, Calcutta received 3,11,048 maunds. The details of this quantity, as well as of the imports into Calcutta from Northern Bengal by river routes, are given below:—

NALHATI STATE RAILWAY.

151. The total quantity and value of the traffic attracted to the Nalhati State Railway during the past three years, exclusive of railway materials, was as follows:—

Year.	Nalhati to Azimgunge.	Azimgunge to Nalhati.	Total. Quantity	Total. Value.
	Mds.	Mds.	Mds.	Rs.
1881-82	1,83,293	87,843	2,71,136	92,80,353

1883-84	2,18,920	90,648	3,09,568	80,49,734

There was very little change in the aggregate quantity of goods carried along this line during the year as compared with 1882-83, but an increase of 38,432 maunds is shown when compared with the trade of 1881-82. The following statement shows the quantities and values of the principal staples:—

156. *Coal.*—The total quantity of coal carried up the line amounted to 2,71,385 maunds, or 26,545 maunds below the trade of 1882-83, and 1,68,896 maunds over that of 1881-82.

157. *Cotton, raw.*—The weight of raw cotton carried upwards was 16,771 maunds, or 3,721 maunds in excess of the trade of 1882-83, and 4,129 maunds over that of 1881-82. The Collector of Durbhunga remarks that this article is imported in large quantities from the North-Western Provinces, and is almost wholly consumed in the district, a very insignificant portion being sent to Nepal. Cotton is also locally grown, but not on a sufficiently large scale to meet the requirements of the district.

158. *Cotton piece-goods.*—The quantity of European piece-goods carried upwards during the year was valued at Rs. 1,04,89,752, against Rs. 100,82,700 in 1882-83, and Rs. 79,25,625 in 1881-82. The cloth merchants of Motihari, Bettiah, and Sahebgunge, whose goods used to pass in previous years through the Mozufferpore station, now find it convenient to import them direct from Calcutta. It is stated that the marriage season when the demand for clothing of all sorts becomes brisk, did not set in until April 1884, and had it not been for this fact, there would probably have been a further increase in this trade. In the case of Indian piece-goods there was an increase during the past year of Rs. 79,140 worth of goods as compared with 1882-83, and a decrease of Rs. 2.02,020 as compared with 1881-82.

159. *Indigo.*—The downward indigo trade showed a falling off of 2,560 maunds as compared with 1882-83, but an increase of 5,281 maunds as compared with 1881-82. The Collector of Mozufferpore writes:—

"The trade in indigo is annually improving. Originally it was confined almost exclusively to European planters. Some of the well-to-do natives have for the last few years taken to this trade, which has resulted in the increase of parent concerns and out-works, and of the area under cultivation. The outturn of the past year was fair, and the quantity exported amounted to 15,669 maunds. The produce is wholly exported to Calcutta, while only the sweepings and a portion of the dust are sold to washermen and country dyers."

160. *Gunnies.*—The total upward traffic under this head amounted to 935,445 bags, against 772,660 bags in 1882-83, and 521,080 bags in 1881-82.

161. *Food-grains.*—The total quantity of food-grains registered during the past three years, was as follows:—

	Down traffic.			Up traffic.

In the down trade, there was an increase in the past year's returns of 94,174 maunds, and 64,730 maunds as compared with the figures of 1882-83 and 1881-82, respectively, while the quantities carried upwards showed a

large decrease of 1,11,446 maunds as compared with 1882-83, and a small increase of 20,090 maunds as compared with 1881-82. The condition of the food-grain traffic is thus described by the Collector of Mozufferpore :—

"The importation of food-grains has greatly increased during the year owing to the failure of the crops. Since the middle of the year grain has been pouring in into all parts of the district from Lower Bengal and from East Tirhoot. The grain was imported by the villagers themselves for their own consumption, and it consisted chiefly of rice It was brought from Durbhunga, Patna, Nawada, Monghyr, Raniguuge, and some other districts of Bengal, and it may be estimated at more than half of the whole imports. Besides this, *makai*, wheat, and *jawar* have been largely imported from Patna, Nawada, Chupra, and Revelgunge."

The total quantity of food-grains sent to Calcutta during the year from Mozufferpore, Durbhunga, and Chumparan was 1,11,826 maunds, of which 70,231 maunds were carried by rail, and 41,595 maunds by country boats.

162. *Hides.*—The down traffic in hides showed an increase of 124,448 pieces as compared with 1882-83, and of 281,832 pieces as compared with 1881-82. The Collector of Mozufferpore reports that the trade in hides seems to be a flourishing industry, and ranks amongst the most important in the district.

163. *Lac.*—The upward traffic amounted during the past year to 7,892 maunds, against 6,810 maunds in 1882 83, and 5,985 maunds in 1881-82.

164. *Liquors.*—The total value of the up trade in liquors during the past year was Rs. 6,08,810, against Rs. 3,64,284, in 1882-83, and Rs. 3,69,306 in 1881-82.

165. *Brass and Copper.*—The quantity carried upwards during the year was 10,437 maunds, against 8,421 maunds in 1882-83, and 6,968 maunds in 1881-82.

166. *Iron and its Manufactures.*—The total weight carried during the past year was 58,817 maunds, showing a decrease of 21,807 maunds on the returns of 1882-83, and an increase of 2,505 maunds on those of 1881 82.

167. *Ghee.*—The down traffic in ghee amounted to 15,749 maunds, against 25,107 maunds in 1882-83, and 12,835 maunds in 1881-82. The falling off was due to the rise of the river Gunduck, which facilitated exports by country boats.

168. *Salt.*—The total amount of salt carried up this line during the past year was 4,59,767 maunds, or 39,892 maunds below the quantity shown in the previous year's returns, and 1,01,148 maunds in excess of the total of 1881-82. The quantities sent to the Mozufferpore and Durbhunga districts from Calcutta, were as follows:—

Year.	By railway,	By river	Total
	Mds	Mds.	Mds.
1881-82	3,49,782	89,317	4,39 099

1883-84	2,94,574	72,394	3 66,968

169. *Saltpetre.*—This trade is steadily increasing, the quantity carried downwards having amounted to as much as 2,59,426 maunds, against 1,45,031 maunds in 1882-83, and 1,00,764 maunds in 1881-82. The outturn last year was fair, and is attributed to the dryness of the season. The quantity of saltpetre brought to Calcutta from Mozufferpore and Durbhunga was 1,63,875 maunds, of which 1,55,326 maunds were sent by rail, and 8,549 maunds by river

170. *Oil-seeds.*—The weight carried downwards was 5,70,236 maunds, or 53,269 maunds over the trade of 1882-83, and 3,12,119 maunds over that of 1881-82, as detailed below:—

171. *Indigo-seed.*—The tota lquantity of indigo-seed carried up this line during the past year was 1,13,166 maunds, against 1,67,314 maunds in 1882-83, and 69,888 maunds in 1881-82. The imports of indigo-seed were all from Cawnpore and other places in the North-West Provinces, as the local seed is said to be of little or no use.

172. *Sugar.*—The total quantity of sugar carried downwards rose from 10,675 maunds in 1881-82 to 16,096 maunds in 1882-83, and to 44,143 maunds in 1883-84.

173. *Tobacco.*—The downward traffic during the past year amounted to 1,96,704 maunds, against 1,96,751 maunds in 1882-83, and 2,11,036 maunds in 1881-82.

174. *Timber.*—The total quantity of timber carried downwards was 74,352 maunds, against 41,266 maunds in 1882-83, and 64,875 maunds in 1881-82.

GYA STATE RAILWAY.

175. The total quantity and value of goods carried along the Gya State Railway during the past three years, exclusive of railway materials, were :—

Year.	Towards Gya. Quantity.	From Gya. Quantity.	Total. Quantity.	Total. Value.
	Mds.	Mds.	Mds.	Rs.
1881-82	5,58,696	9,71,770	15,30,466	2,54,62,485

1883-84	9,30,398	9,16,582	18,46,980	2,17,07,888

In the traffic towards Gya the increase amounted to 60·03 per cent. as compared with 1882-83, and to 66·54 per cent. as compared with 1881-82, while the traffic from Gya showed a decrease of 15·49 and 5·67 per cent. on the returns of 1882-83 and 1881-82, respectively.

176. The most important items of trade which contributed to the increase in the year's traffic, as compared with 1882-83 were food-grains, oilseeds, salt, saline substances other than saltpetre, gunnies, stone, gums and resins, and ghee. On the other hand, the articles which showed a marked decrease were cotton piece-goods, coal, lac, iron, opium, provisions other than ghee, and sugar. The statement below shows all the principal articles of traffic carried by this route during the past three years :—

177. *Coal.*—The figures for the past year showed a large decrease of 51,123 maunds as compared with 1882-83, and of 77,852 maunds as compared with 1881-82.

178. *Cotton, raw.*—The trade in raw cotton remained almost stationary, the total quantity having amounted to 15,232 maunds against 14,607 maunds in 1882-83, and 15,838 maunds in 1881-82.

179. *Cotton Piece-goods.*—The total amount of European piece-goods carried towards Gya during the year was valued at Rs. 13,79,736, against Rs. 21,44,100 in 1882-83, and Rs. 21,52,575 in 1881-82. The total value of cotton piece-goods of Indian manufacture amounted to Rs. 1,48,500, against Rs 2,85,750 in 1882-83, and Rs. 2,35,260 in 1881-82.

180. *Gunnies.*—This trade showed an increase of 46,445 bags, as compared with 1882-83, and of 150,465 bags as compared with 1881-82.

181. *Food-grains.*—The total quantity of food-grains registered was:—

	1881-82.	1882-83.	1883-84.
	Mds.	Mds.	Mds.
Wheat	74,963	42,319	1,22,364

Other food-grains	......	480	1,36,690
Total ...	2,70,374	3,00,778	6,12,956

It will be seen that the total weight of the trade of 1883-84 in food-grains carried both ways was more than double the figures of the two previous years. There was an enormous increase in the quantities carried to the Gya district, the total supply having amounted to as much as 4,39,424 maunds, against only 98,323 maunds in 1882-83, and 39,425 maunds in 1881-82. On the other hand, the traffic from Gya fell off from 2,30,949 maunds in 1881-82, to 2,02,455 maunds in 1882-83, and to 1,73,532 maunds in 1883-84, as shown below:—

	Imports into Gya.			Exports from Gya.		
	1881-82.	1882-83.	1883-84.	1881-82.	1882-83.	1883-84.

Total ...	39,425	98,323	4,39,424	2,30,949	2,02,455	1,73,532

The import trade was chiefly in rice, miscellaneous food-grains, and gram and pulse, while the bulk of the export trade consisted of wheat. The failure of the rains, and the poorness of the rice crop in the Gya district were the cause of these fluctuations of trade.

182. *Gums and resins.*—The total supply of gums and resins carried from Gya was very large, being 9,230 maunds against only 588 maunds in 1882-83.

183. *Hides.*—The down traffic in hides showed a slight decrease of 4,920 pieces as compared with 1882-83, and an increase of 11,888 pieces as compared with 1881-82.

184. *Lac.*—The quantity of shell, stick, and other kinds of lac carried downwards aggregated 34,275 maunds, against 52,036 maunds in 1882-83, and 35,015 maunds in 1881-82.

185. *Iron and its manufactures.*—There was a large decrease in this trade, the total quantity being 11,749 maunds, against 25,897 maunds in 1882-83, and 31,613 maunds in 1881-82.

186. *Opium.*—This trade again showed a falling off during the year, the traffic having amounted to 11,596 maunds, against 13,981 maunds in 1882-83, and 16,360 maunds in 1881-82.

187. *Ghee.*—The quantity of ghee carried downwards showed an increase of 2,578 maunds over the figures of 1882-83, and of 280 maunds over those of 1881-82.

188. *Provisions other than ghee.*—The total quantity carried from Gya during the past year was 34 maunds, against 23,705 maunds in the previous year. The

falling off in the exports was due to the demand for provisions in the Gya district having been very great.

189. *Salt.*—The upward salt traffic showed an increase of 81,783 maunds during the past year, as compared with 1882-83, and of 78,845 maunds as compared with 1881-82.

190. *Other saline substances.*—The total quantity consigned towards Gya was 27,847 maunds, being 17,627 maunds in excess of the trade of 1882-83. This head includes khari salt, which is largely used for curing hides.

191. *Oilseeds.*—The total quantity of oilseeds carried from Gya was:—

	1881-82.	1882-83.	1883-84.
	Mds.	Mds.	Mds.
Linseed	1,52,715	1,53,594	2,11,267
Mustard-seed	27,190	23,183	28,257
Til-seed	7,584	2,407	2,148
Other oilseeds	1,309	4,748	15,873
Total ...	1,88,798	1,83,932	2,57,545

As compared with 1882-83, the figures under linseed showed an increase of 57,673 maunds, or 37·55 per cent., and under other oilseeds of 11,125 maunds, or 233·73 per cent.

192. *Spices.*—The total traffic under this head fell off from 21,482 maunds in 1881-82 to 15,621 maunds in 1882-83, and 6,436 maunds in 1883-84.

193. *Stone.*—The weight carried downwards was 1,77,016 maunds against 1,26,398 maunds in 1882-83, and 12,663 maunds in 1881-82.

194. *Sugar.*—The downward sugar traffic showed a heavy decline during the past year, the total quantity having amounted to 1,35,958 maunds against 3,93,261 maunds in 1882-83, and 3,25,848 maunds in 1881-82. This result was due to the deficiency of the rains.

195. *Tobacco.*—The total quantity of tobacco carried down this line during the past year was 35,412 maunds, or 4,769 maunds below the quantity shown in the previous year's returns, and 8,510 maunds less than the trade of 1881-82.

COTTON—RAW.

2. The total quantity of raw cotton imported into, and exported from, Calcutta during the past three years, was as follows:—

Specification of Routes.	Imports.			Exports.

3. The import trade showed an advance of 26·70 per cent. as compared with 1882-83, and of 6·01 per cent. as compared with 1881-82. The outturn of the year's crop in the Upper Provinces was generally of a fair average quality, and the consignments to Calcutta by the East Indian Railway were 38·06 and 2·29 per cent. in excess of the quantities carried by this route during 1882-83 and 1881-82, respectively. On the other hand, shipments of cotton to Europe *viâ* Bombay were not so large as in the previous year, owing to freights having been lower in Calcutta than in Bombay. This no doubt accounts for the increase of 1,66,470 maunds, or 23·76 per cent. in the exports from Calcutta by sea. On the subject of freights, the Collector of Customs, Calcutta, writes:—

Imports.

"The advantage obtained by Bombay in cheaper freights has not been so perceptible in the past year, for freights from Calcutta have been very low, so that exporters had no special

inducement to send their cotton *viâ* Bombay. So long as freights keep low, the shipments for Bengal cotton through Calcutta are likely to continue; but a change in this respect would again divert the trade to Bombay. I am informed that there had been many disputes between the London buyers and the Bombay suppliers as to the quality of the cotton shipped, and that the latter have been chary in engaging in transactions in Bengal cotton during the past year; but a better knowledge of the London requirements would probably soon put an end to this.

"There was a larger crop of American cotton than in the previous year, and this, besides the stoppage in Lancashire of a certain number of looms, would naturally have caused exports to fall off from Calcutta, if the above-named reasons had not operated in the opposite direction."

4. The imports of raw cotton by internal routes came from the following provinces:—

The increase in the import traffic is chiefly due to the large quantity of raw cotton received from the North-Western Provinces and Oudh during the year.

Principal railway stations.

5. The statement below shows all the principal supplying stations along the East Indian Railway during the year:—

The quantity brought to Calcutta by the steamer service of the Eastern Bengal Railway was 23,661 maunds, out of which 14,621 maunds were consigned from Naraingunge.

Imports by sea.

6. The total amount of the imports by sea during the past year was 7·06 per cent. in excess of the figures of 1882-83, and 28·85 per cent. above those of 1881-82. The different markets from which the supplies were principally derived during the past year, were, Bombay 1,82,690 maunds, British Burmah 15,079 maunds, and Madras 5,209 maunds.

Exports.

7. The export trade last year showed an increase of 27·08 per cent. as compared with 1882-83, but a decrease of 5·77 per cent. when compared with 1881-82. The bulk of the trade was sea-borne, and its destination was as follows:—

The quantity exported from Calcutta to the United Kingdom showed an increase of 30·96 per cent. on the returns of 1882-83. The Collector of Customs, Calcutta, writes:—

"The prospects of the trade with the United Kingdom are apparently satisfactory, for a better demand for short-stapled cotton has developed itself in Lancashire, and this should re-act in a favourable way upon our exports."

8. The quantity of raw cotton not exported before the close of the year was 3,34,840 maunds against 2,70,502 maunds in 1882-83, and 2,07,127 maunds in 1881-82.

Quantity not exported before the close of the year.

IMPORTS.

European twist and yarn.

10. The imports by sea represent the total clearances of European cotton twist and yarn from ship-board and from bond for consumption. The supply during the past year was 24,436 maunds in excess of the figures for 1882-83, and 8,188 maunds over those for 1881-82. The different ports which contributed to the trade during those years, were as follows:—

The Collector of Customs submits the following explanation of the increase in the trade:—

"The increase in the importations of twist and yarn is 16¾ per cent. divided amongst the various descriptions of grey and white, Turkey red and coloured. There has been an increase in the importations of grey yarn under 15*s*. The receipts of this yarn have been steadily advancing since 1879-80, last year's imports being about three times those for that year. This yarn, however, does not compete with importations from Bombay; it consists principally

of doubled yarn used in the various jute mills in Calcutta. The other counts of yarn which compete with the Indian spun yarn, show a heavy decline, no doubt owing to larger receipts from Bombay. All the higher counts of grey yarn have increased, especially 40s, which is the count most largely imported, and stocks have not accumulated to any extent, the figures for the close of 1883 being 2,452 bales against 2,124 bales at the end of 1882. There have been large imports of Turkey red and Alizarine yarn during the year, especially during the closing months. Prices have been low, but they were sufficiently high at the beginning of the year to be profitable; the larger receipts of the last few months have, however, caused a serious fall in values."

Indian twist and yarn.

11. The total imports of Indian twist and yarn showed an increase of 83,800 maunds on the returns of 1882-83, and of 62,285 maunds on those of 1881-82. The quantities imported by sea rose from 68,973 maunds in 1881-82 to 71,140 maunds in 1882-83, and 82,121 maunds in 1883-84; the chief port of supply was Bombay, which exported 81,797 maunds, against 71,069 maunds in 1882-83. The boat traffic, which comprised for the most part the produce of the cotton mills in the vicinity of Calcutta, fell off from 87,649 maunds in 1881-82 to 57,410 maunds in 1882-83, and 77,852 maunds in 1883-84, as detailed below:—

Exports.

European twist and yarn.

14. The increase in the exports of European twist and yarn was 19,367 maunds as compared with 1882-83, and 5,587 maunds as compared with 1881-82. The total quantity of the internal trade showed an increase of 13,744 maunds on the figures of 1882-83, but a falling off of 8,509 maunds as compared with those of 1881-82, while the sea-borne trade exhibited

an increase of 5,623 maunds on the totals of 1882-83, and of 14,096 on those of 1881-82. The details of this traffic are shown below :—

Quantity not exported before the close of the year.

21. The result of the year's traffic in twist and yarn was a surplus of imports over exports to the extent of 57,274 maunds; the figures of 1882-83, however, showed a deficit of imports amounting to 26,471 maunds, against a surplus of 27,135 maunds in 1881-82.

COTTON PIECE-GOODS.

22. The total value of European cotton piece-goods imported into, and exported from, Calcutta during the past three years was as follows:—

The piece-goods carried by rail and by inland steamers are registered by weight only, and the values are calculated at Rs. 72 per maund, being the average price in Bengal of piece-goods of all sorts. In all other cases the figures represent declared values.

European piece-goods—Imports.

23. The imports by sea shown in the foregoing statement represent the total clearances from shipboard and from bond for consumption. The total value of these goods showed an increase during the past year of ·53 per cent. as compared with 1882-83, but a decrease of 1·62 per cent. as compared with 1881-82. The following statement shows the different ports from which the piece-goods supply was derived during the past three years:—

The Collector of Customs, Calcutta, writes:—

"The year has been again bad for the cotton trade in Lancashire. The crop of American cotton being large—it was estimated at 7,000,000 bales—the prices of the raw material gradually declined. This decline was at one time accentuated by the operations of a large speculator in Liverpool, who was eventually compelled to go into liquidation. An advance in cotton then took place, after which values remained fairly tranquil. With a large crop of cotton at low prices, manufacturers generally should have been in a good position, but the state of trade has been so unsatisfactory, that it has been an unprofitable year to them. The great consuming markets in China and Japan have not taken off the quantities they were expected to do. Calcutta has certainly received larger supplies, but it is doubtful if the prices paid to manufacturers covered their cost; and our heavier imports have partly been due to a diversion of goods from China and Japan, where this trade was in a worse state than it was here, and to consignments by manufacturers who found it difficult to sell. Prices were so bad in Lancashire that manufacturers were compelled to lessen the cost of production by reducing the wages of some of their workmen. A strike was the result, with a consequent stoppage of looms, and a decline in production; but this had no effect on the market here, which was generally sluggish and dull throughout the year. Working short time was also attempted, but with no result here on prices, as this market was too well supplied. Importers in Calcutta have not, however, done badly, though prices have been about the lowest ever reached in India; they have generally been able to cover

their cost, and the gradual decline in home prices enabled them for the most part to replace their sales at the same or lower values. Stocks, except in certain descriptions of white goods, have not increased, so that the low prices must have caused an expansion of business, last year's receipts averaging more than 70 million yards of plain cottons monthly, nearly the whole of which has gone into consumption."

Exports.

24. The result of the last year's traffic under exports was a decrease of 3·22 per cent. as compared with 1882-83, and of 3·97 per cent. as compared with 1881-82. As regards the several routes followed by the trade, the quantities carried by the East Indian Railway showed a trifling decrease of 1,627 maunds, or ·13 per cent. as compared with 1882-83, and of 2,640 maunds, or ·21 per cent. as compared with 1881-82. The exports by the Eastern Bengal Railway were 11,572 maunds, or 3·15 per cent. below those of the previous year, and 31,788 maunds, or 8·21 per cent. below those of 1881-82. The Calcutta and South-Eastern State Railway returns showed an increase of 1,312 maunds, or 375·93 per cent. over the figures of 1882-83. The boat traffic exhibited an increase of 3·71 per cent. on the trade of 1882-83, but a decrease of 17·56 per cent. as compared with that of 1881-82. The traffic carried by inland steamers advanced 2·85 and 24·40 per cent. as compared with the two years 1882-83 and 1881-82, respectively. The exports by road routes were almost the same as in the previous year, but they were 7·61 per cent. below the trade of 1881-82. The sea-borne exports showed an increase of 17·69 and 19·20 per cent. on the totals of 1882-83 and 1881-82, respectively. The distribution of the exports is classified by provinces in the following statement:—

Comparison of imports with exports.

25. If 20 per cent. be added to the imports by sea on account of under-statement of values, insurance, landing charges, &c., &c., the total of the year's traffic would amount to Rs. 14,15,20,792. Out of this amount, the value of piece-goods exported during the year was Rs. 13,44,62,270, as shown above. The surplus of imports over exports, therefore amounted to Rs. 70,58,522, against Rs. 18,02,940 in 1882-83, and Rs. 36,14,394 in 1881-82.

Trade of Bengal—Imports.

26. The total value of European piece-goods imported into the different divisions of Bengal from Calcutta during the past three years was as follows:—

	1881-82.	1882-83.	1883-84.
	Rs.	Rs.	Rs.
Burdwan division (excluding Howrah) ...	67,66,884	71,34,046	73,11,450

Total ...	4,69,80,747	4,53,46,673	4,43,62,671

In addition to the above supply, the imports by rail from other sources during the past three years, were:—

	1881-82.	1882-83.	1883-84.
	Rs.	Rs.	Rs.
From Behar	8,550	5,550	7,992
" North-Western Provinces and Oudh ...	150	2,325	648
" Bombay	......	1,275	......
Total ...	8,700	9,150	8,640.

The imports into Chittagong from foreign and Indian ports other than Calcutta were Rs. 3,15,792, against Rs. 2,91,760 in 1882-83, and Rs. 2,82,968 in 1881-82. The grand total of the imports, therefore, amounted to Rs. 4,46,87,103, against Rs. 4,56,47,583 in 1882-83, and Rs. 4,72,72,415 in 1881-82.

Exports.

27. The total value of piece-goods exported from Bengal by rail and by land is shown below:—

		1881-82.	1882-83.	1883-84.
		Rs.	Rs.	Rs.

Total	...	7,47,352	8,07,419	6,85,348

28. The surplus of imports over exports amounted to Rs. 4,40,01,755.

Comparison of imports with exports.

The population of Bengal being 40,419,647 souls, this supply would allow Rs. 1-1-5 worth of goods for consumption per head of the population for the year, against Rs. 1-1-9 in 1882-83, and Rs. 1-2-5 in 1881-82.

Trade of Behar—Imports.

29. The total value of piece-goods imported into Behar from Calcutta was as follows:—

	1881-82.	1882-83.	1883-84.
	Rs.	Rs.	Rs.
Patna division	2,48,73,786	2,61,03,734	2,33,62,664

Total ...	3,43,54,957	3,61,60,484	3,30,31,806

The value of piece-goods carried by rail to Behar from places other than Calcutta during those years was:—

	1881-82.	1882-83.	1883-84.
	Rs.	Rs.	Rs.
From Bengal	14,325	21,000	23,616

" Bombay	30,450	35,325	76,536
Total ...	85,425	83,175	1,26,792

The aggregate value of the imports into Behar was therefore Rs. 3,31,58,598, against Rs. 3,62,43,659 in 1882-83, and Rs. 3,44,40,382 in 1881-82.

Exports.

30. The amount of piece-goods exported from Behar by rail and by land was as follows:—

		1881-82.	1882-83.	1883-84.
		Rs.	Rs.	Rs.
To Howrah	(by rail)...	6,000	20,775	23,544

Total	...	11,93,904	11,68,264	16,53,989

Comparison of imports with exports.

31. The net value of piece-goods available for consumption among a population of 23,127,104 souls would thus amount to Rs. 3,15,04,609, against Rs. 3,50,75,395 in 1882-83, and Rs. 3,32,46,478 in 1881-82, or at the rate of Rs. 1-5-9 per head per annum, against Rs. 1-8-3 in 1882-83, and Rs. 1-7-0 in 1881-82.

Trade of Orissa.

32. The imports of piece-goods into Orissa are shown in the following statement:—

	1881-82.	1882-83.	1883-84.
	Rs.	Rs.	Rs.

" Other Indian ports	2,825	1,519	7,621
Total ...	9,39,155	10,44,365	10,47,697

Last year the exports from this province were valued at Rs. 1,150, and the balance, amounting to Rs. 10,46,547, gives an average yearly local consumption of annas 3-2 per head of a population of 5,199,877 souls, against annas 3-3 in 1882-83, and annas 3 in 1881-82.

Trade of Calcutta with Assam.

33. The total value of piece-goods sent to Assam from Calcutta was Rs. 44,52,178, against Rs. 47,34,505 in 1882-83, and Rs. 42,70,092 in 1881-82.

Progress of local manufacture by steam and by hand.

40. The number of cotton-mills which were worked by steam in Bengal during the year was six, of which two were in Howrah, and four in the district of the 24-Pergunnahs; but in none of them were piece-goods manufactured during the past year. Regarding the condition of hand-loom manufacture in the interior of Bengal, the local officers report as follows:—

Burdwan Division.—"The weaving of this article [cotton-cloth] is carried on more or less, in all parts of the division. That manufactured at Lall Bagan and one or two other places in the Culna sub-division of the Burdwan district is highly prized for its fine texture and durability. Owing to the competition of English piece-goods this branch of the industry is losing ground almost every year. There was, however a partial revival during the year under report. Owing to the strained relations between France and China during the latter end of the year, importation of twist into the latter country is said to have been nearly entirely stopped, and the consequence was a glut in the home markets. The magistrate of Howrah reports that one single firm, the Bowreah mills, produced 3,937,354lbs of yarn, worth Rs. 14,47,020. The Howrah hât is the great mart for the sale of cotton-cloths. Native dealers from Calcutta, Hooghly, Burdwan, Midnapore, and even districts more remote, resort to it for the purchase of this article."

Presidency Division.—"The looms of Santipore [in Nuddea], though still maintaining their reputation, are being gradually driven out of the market by the introduction of much cheaper products from Manchester. In Khulna, country cloth of superior kinds is manufactured in Siddipassa, Rajbari, and Dhulipore, but the weavers are said to be gradually forsaking their occupation for want of a profitable sale."

Rajshahye Division.—"Cotton-cloth is made to a small extent for local use in Dinagepore, Rajshahye, Julpaigori, and Darjeeling. It is made in considerable quantities in Pubna. Mr. Glazier writes:—"The manufacture of country-made cloths was in a depressed state several years ago, owing to the produce having been driven out of market by cheap English machine-made cloths, but for the last few years the manufacture has begun to revive. Pubna cloths are of fine texture and much valued. A pair of *dhooties* will fetch so much as Rs. 15 to Rs. 18, and sometimes more. These cloths are extensively exported to Nuddea, Hooghly, Calcutta, Rungpore, Dinagepore, Bogra, and other places. It is supposed that about 8,000 to 10,000 people are employed in weaving these cloths, and that the value of their work is about Rs. 2,50,000, of which about Rs. 50,000 worth meets the local demand, and the rest is exported. A few years ago the condition of the weavers was miserable, but they are now prospering. Some of the weavers near Soojanagore are building pucca houses. It is thought there will be a rapid increase of this manufacture in this district, as the people, more especially the higher clases, are showing more of a tendency to use country-made cloths in place of English-made. Doghachi *dhootis* and chota dhoal *uranis* are much valued.

"The manufacture is dying out in Dinagepore and Darjeeling, but country cloth is still in demand among the peasant class in Rajshahye, being very durable."

Dacca Division.—"Mr. Wyer writes:—"The excellence of Dacca weaving and embroidery has been long known and dwelt on in almost every annual report; this industry is, I believe, less followed each year, and the hope that the Calcutta Exhibition would give it a stimulus has not been fulfilled. The fact is that people do not care to pay so high a price as must be given in order to give anything like fair wages to the people employed on it. The buisness of working on cotton and silk kasida-work, is followed more as a way of utilizing spare time than as a means of getting a living—something like lace-making in parts of Bedfordshire. Thus it will take a woman from 8 to 12 months to work a *shari* at her odd moments, and then she will sell it from Rs. 20 to Rs. 25."

Chittagong Division.—"The District officers of Chittagong and Noakhally draw attention to the rapid decrease in the production of native-made piece-goods which are being driven out of the market by importations from Manchester. Both these districts at one time contained important commercial factories under the East India Company. The native weavers are now taking to agriculture. This is a result observable in all districts, but it is to be regretted, as the great need in India is rather to attract the surplus population to manufacturing than to agricultural pursuits."

Bhagulpore Division.—"The manufacture of coarse cloth by *Julahas* and *Tantis* is slowly declining throughout the division, but the competition with English goods, though it has substitued English yarn for home-spun thread, has not as yet been able to under-sell country made cloths, or drive them out of the market. The cloths are manufactured for local consumption only."

Chota Nagpore Division.—"Coarse cloths are manufactured all over the division by weavers for local consumption."

INDIGO.

41. The total quantity of indigo carried to, and from, Calcutta during the past three years, is shown in the following statement:—

42. The total increase in the imports amounted to 8·84 per cent. on the figures for 1882-83, and to 12·91 per cent. on those for 1881-82. The increase in the year's outturn was due to a larger production in the Doab and Benares. In Bengal the crop was a poor one owing to want of rain at the beginning of the season. In Tirhoot, the yield was about the same as in the previous year. Indigo is for the most part brought to Calcutta by the East Indian Railway, and the returns

Imports.

of that line show an increase of 11·32 and 18·23 per cent. over the totals of the two years 1882-83 and 1881-82, respectively. The sources of the supply, province by province, were:—

Total ...	1,32,916	1,37,883	1,50,074

The outturn of indigo in the native factories during the past year is said to have amounted to almost one-half of the total crop. The Collector of Customs, Calcutta, makes the following remarks on the condition of the indigo trade:—

"The position of indigo generally appears to be a favourable one, for increased production has been followed by increased consumption, with prices fairly up to the average of ordinary years, so that a marked falling off in production would probably cause a considerable advance in value. The discovery of any cheap artificial method of producing a substitute for indigo has been worked at so long without any satisfactory result that it is beginning to be a bugbear of the past."

Exports.

43. There was an increase in the export trade, amounting to 12,622 maunds as compared with 1882-83, and to 23,079 maunds as compared with 1881-82. The distribution of the sea-borne trade of those years, was as follows:—

Quantity not exported before the close of the year.

44. The total quantity of indigo exported during the year was 320 maunds in excess of the quantity imported, against a surplus of 111 maunds in 1882-83, and of 5,601 maunds in 1881-82.

46. The falling off in the imports was 48,70,979 maunds, or 31·36 per cent. as compared with 1882-83, and 19,79,811 maunds, or 15·66 per cent. as compared with 1881-82. The outturn of the year's crop was indifferent, and there was consequently a rise in price compared with 1882-83. The Collector of Customs, Calcutta, writes:—

Imports.

"Exports of raw jute have fallen during the past year as compared with 1882-83 by 35¼ per cent. There have been two causes for this—*firstly*, the falling off of the crops from want of rain at one period of the year; *secondly*, the growers were not satisfied with the prices obtained in the previous year, and did not sow as largely. The tendency of the ryot to change his crop from jute to rice, or *vice versâ*, has been remarked upon in previous reports. and the past year has been a remarkable instance of the influence lower prices in one year may have upon the supply of raw jute in the following."

The Commissioner of the Dacca Division writes as follows:—

"The jute crop was everywhere below the average both in quality and quantity—the result of an unfavourable season and of a smaller cultivation of the plant. In Dacca it was at most an 8-anna crop, and in Furreedpore the outturn also was not much more than half the average. In Mymensingh it was considerably below that of the previous year.

The remarks made by the district officers of the Rajshahye Division are extracted below:—

Dinagepore.—"The outturn of this crop was good during the year under report, and a large quantity of it was mainly exported to Calcutta by the Northern Bengal State Railway. The jute trade is being developed year by year, solely on account of the facilities for export given by the Northern Bengal State Railway. A large influx of itinerant traders come into the district in October and November of each year, when the havesting of jute goes on. These merchants make large purchases. The local traders, too, buy as much as they can get hold of, and thus there is always a competition in the market, much to the advantage of the growers. The jute market was very favourable to the cultivators during the year under review. The average selling price of a maund of jute was over Rs. 3."

Rajshahye.—"The outturn of jute was about three-fourths of the average, and less land was cultivated. Jute is extensively cultivated in Nowgong, and exported chiefly from Atrai station (1,98,312 maunds) by railway."

Bogra.—"Jute, which stands next in order of importance to rice, is grown chiefly in the eastern part of the district, *i.e.*, the tract lying on the eastern bank of the Karotya. The outturn was on the whole satisfactory. The principal centres of this trade are Chandaikona, Sherepore, Pechibari, Goshainbari, Ellangi, Mourerchar, Mathurapara, Hashraj, Sonatalah, Shibgunge, Hili, Joypore, and Sonamukhi. From Hili and other places close to the Northern Bengal State Railway jute is exported by railway. From Mourerchar on the Daokoha, from Mathurapara on the Belai, from Sonatalah, Hashraj, and other places on the Bengal, and from Chandaikona on the Phuljore rivers, it is exported to Serajgunge by boat, and from there it is ultimately sent to Calcutta *viâ* Goalundo by the Eastern Bengal Railway. About 1,50,000 maunds of jute were exported from this district. The price of jute during the year varied from Rs. 3 to Rs. 3-2, according to quality."

Rungpore.—"The trade in jute was briskly carried on by Burmese and up-country men, but no statistics as to the extent of export were collected. The low price obtained for jute during the previous year led to much less being grown during the year under report, but all the land that was sown with it yielded an excellent crop both in quantity and quality. The price of jute varied from Rs. 2-8 to Rs. 3-4 per maund."

Pubna.—"The jute sowings were limited on account of the low price of jute in the previous year, and the consequence is said to have been that the price of jute rose considerably in the course of the year, the dealers, however, and not the ryots, reaping most of the profits, as the latter had sold the better part of their produce early. The most important jute market after Serajgunge is Bera, at the junction of Oorasagur, Burral, and Ichamutty. The estimated export of jute from Bera in 1883-84 is 4,50,000 maunds. There is no other place of importance, but jute is stored at many places along the Oorasagur, Phuljore, Burral, and Pudma rivers, from whence it is taken by country-boats to Goalundo or Calcutta. The prices of the year varied from Rs. 3 to Rs. 6 the maund. The employment given by this trade at various places where jute is collected attracts a great number of labourers, who can earn as much as 10 to 12 annas a day."

Julpigoree.—"The jute trade must have been affected by the partial failure of the crops, and that there was a high demand is apparent from the fact that jute had reached the unprecedented price of 7 and 8 rupees a maund at the close of the year. The area under cultivation was quite equal to, if not greater than, that of the previous year."

From Purneah it is stated that owing to the market having been dull in the previous year, jute was cultivated to a very small extent. Those who did grow it were, however, amply rewarded by the prices it fetched.

The Collector of Customs, Calcutta, remarks "that the consequence of the small crop and high prices has been a decline in exports to all the countries taking the staple, except Italy, to which there has been an increase. To the United Kingdom the decline is about 32 per cent.; to Austria 21¾ per cent.; and to the United States 42½ per cent."

Quantity not exported before the close of the year.

53. After deduction of the exports from the imports there remained 20,97,527 maunds, against 27,06,532 maunds in 1882-83, and 28,40,624 maunds in 1881-82.

Imports.

55. The decrease in the imports was 4,750,092 bags on the returns of 1882-83, and 3,237,359 bags on those of 1881-82. Compared with 1882-83, the falling off was most marked in the consignments carried by the Eastern Bengal Railway (27·47 per

cent.) and by country boats (8·98 per cent). The imports by road, however, showed a slight increase of 136,439 bags as compared with the previous year's trade. The Eastern Bengal Railway figures include 4,671,660 bags consigned *viâ* the Northern Bengal Railway, against 9,104,413 bags in 1882-83, and 4,263,610 bags in 1881-82. Jute cloth and bags are manufactured in every district of the Rajshahye Division. They are extensively made in Dinagepore and Pubna, and are largely exported. Jute cloth is made in Julpigoree in small quantities for local use only, but bags are made and exported in large quantities. The Commissioner of the Rajshahye Division makes the following remarks in his general administration report for 1883-84 regarding the trade of the Dinagepore district in gunnies:—

"The manufacture of, and demand for, gunny-bags in Dinagepore is said to have again suffered this year, and is declining. The demand for raw jute has had a deterrent effect on the manufacture of gunny-bags. If people can sell their raw material at a better price to traders than the local weavers, they will of course do so. The demand for raw jute at the hands of wholesale vendors is said to be daily increasing, and with the opening of the railway will still further increase, and Mr. Tute thinks will by degrees drive out any manufacture of gunny-bags save for local use only. I rather regret this, for a few years ago the outturn of the Dinagepore weaver was considerable, and the work good. I remember making inquiries about it on the road between Parbuttypore and Dinagepore."

The total number of bags brought to Calcutta from Serajgunge by the steamer service of the Eastern Bengal Railway was 3,559,971 pieces, against 3,384,591 bags in 1882-83, and 3,559,971 bags in 1881-82.

59. The exports showed an increase of 2,178,284 bags as compared with 1882-83, and of 29,122,761 bags as compared with 1881-82. The destination of the exports by sea during those years was to the following places:—

The Collector of Customs, Calcutta, writes—

"The jute manufacturing industry was in a fairly prosperous condition at the beginning of the year under review, but, on the crop of the raw material turning out small, prices advanced considerably without a corresponding advance in the manufactured article, the consequence being that profits were soon reduced to the lowest point and eventually disappeared altogether. The production of the mills for the past four months has been in excess of the demand, and with the larger producing capacity to be looked for from extensions in old mills and the erection of new ones, the prospects of this industry are at present very discouraging; for with the raw material about 50 per cent. higher in value than in the previous year the price of bags is about 15 per cent. lower. The extensions and new mills will, it is said, be an addition of 1,000 looms to the number now working, and this is a very considerable increase to the producing capacity of the Calcutta mills. The only encouraging feature at present visible is the probability of the new crop being an exceptionally large one; if it is so, the price of the raw material will fall and the mills will be able to turn out their manufactures at cheap rates."

60. Out of the total exports by internal routes, the East Indian Railway carried 18,812,955 bags, of which 2,834,895 bags were consigned to Patna, 2,214,205 bags to Cawnpore, 1,127,350 bags to Fyzabad, 1,199,485 bags to Delhi, 577,290 bags to the Sonthal Pergunnahs, 548,170 bags to Monghyr, 260,995 bags to Beerbhoom, 344,050 bags to Burdwan, and 9,706,515 bags to other places. The destination of the exports by country boats was to Hooghly (736,520 bags), 24-Pergunnahs (383,817 bags), Nuddea (98,109 bags), Midnapore (80,764 bags), Monghyr (74,475 bags), and Bhagulpore (65,433 bags).

61. The surplus of exports over imports amounted to 101,085,945 bags, against 94,157,569 bags in 1882-83, and 68,725,825 bags in 1881-82. This represents part of the out-turn of the mills in Calcutta and the suburbs.

63. The import trade by internal routes showed a falling off of 27,370 pieces as compared with 1882-83, and of 49,121 pieces as compared with 1881-82. Regarding the manufacture of gunny cloth in the Dinagepore district the local officer writes:—

Imports

"A good traffic is still carried on in this article, but it is on the decline. Jute raw can now, unlike in the years past, be advantageously disposed of by the growers almost at their own doors, and they do not therefore go to the trouble of manufacturing it into gunny. The manufacture of gunny by machinery in and about Calcutta, as I have stated elsewhere, has injuriously affected this industry."

64. The total trade shown above comprised 4,520 pieces of power-loom manufacture, and 22,414 hand-made pieces, the sources of supply being as follows:—

If a machine-made piece be taken as equal to 80 yards, and a hand-made piece as equal to 22 yards, the total of the year's traffic amounted to 870,652 yards, against 2,113,206 yards in 1882-83, and 3,361,019 yards in 1881-82.

65. The exports by internal routes exhibit a decrease of 86 pieces as compared with 1882-83, and of 3,378 pieces as compared with 1881-82. As regards the sea-borne exports, the figures show an increase of 7·92 and 213·86 per cent. on the

67. According to measurement, the gross total of the year's traffic under exports amounted to 28,651,289 yards. After deducting from this 493,108

yards, imported from the interior, and allowing 2,000,000 yards for the Calcutta consumption, the result shows the outturn of manufacture in Calcutta to be 30,158,181 yards, which at about 80 yards to a maund, is equal to 3,76,977 maunds, against 27,845,659 yards, or 3,48,071 maunds in 1882-83, and 45,444,122 yards, or 5,68,052 maunds in 1881-82.

FOOD-GRAINS.

68. The harvests of the past year were again deficient, and the prices of all sorts of food-grains rose in consequence. The crops in the Patna Division suffered much from floods and the unseasonable distribution of the rainfall. In the district of Patna, the deficiency in the outturn of the crops was partial, and did not materially affect the district as a whole. The *rabi*, or spring, crop was exceptionally good, the outturn of the *bhadoi* or rain but crop was at most four annas, while in the case of the *amun* or winter crop the average yield was eight annas. In the district of Gya the year under report was one of very great anxiety. The *bhadoi* crop was damaged by floods as well as by drought; the late *amun* rice was hardly more than a four-anna crop, and the early *rabi* was very bad. The outturn of the late *rabi* however was excellent, and saved the district. In the district of Shahabad, the *bhadoi* crop yielded from five to six annas; the winter rice crop was very indifferent, but the *rabi* yielded a ten-anna crop. The ryots, it is said, passed through a very bad agricultural year following two indifferent ones. A great part of the Mozufferpore district was submerged in August 1883 by floods which were the highest on record, and which almost entirely destroyed the *bhadoi* and *aghani* crops over an area of about 648 square miles, populated by over half a million souls. This calamity was immediately followed by a protracted drought which considerably damaged the *rabi* harvest.

69. At the first alarm of drought the prices of all food-grains rose suddenly. The prices of the coarser grains consumed by the people, such as maize, *murwa*, and the millets, rose to more than twice the ordinary rates, and the price of common rice nearly doubled itself. Up to the close of the year under review, the prices of all food-grains showed little or no tendency to fall. No deficiency, however, in the supply of food-grains manifested itself in any part of the district up to the close of the year owing to the people having "commenced in October last to import grains vigorously from Nepal, and from the great rice-producing tract to the east of Durbhunga."

70. The condition of things in the Durbhunga district was quite as bad as that in Mozufferpore, but in the former district it was not so much the floods as the subsequent drought which really affected the agricultural results of the year. Taking the average of the whole district, the outturn of *bhadoi* was estimated at four annas, that of *aghani* at seven annas, and that of *rabi* at six annas. In the Durbhunga district prices commenced to rise in July, and at the close of the year they are said to have reached the rates which prevailed during the famine of 1874. Mr. Price, the Collector, considers that his district was saved from starvation by the prompt importation of large quantities of food-grains from the North-Western Provinces. He writes:—

> "The very large and unusual imports of food-grains from the north-west for some months past, when viewed side by side with the fact that the district has always been a grain-exporting one, clearly points to the inadequacy of the home produce, and the absence of any very large stocks of food-grains in the hands of zemindars, agriculturists, and others. However, there has not been such distress anywhere as to call for State interference."

71. In the districts of Sarun and Chumparun the harvests were affected by the deficient and unequally distributed rainfall. The average outturn of the crops in each of those districts was as follows:—*bhadoi* eleven annas and ten annas, *aghani* two annas and seven annas, and *rabi* eleven annas and eight annas, respectively. The prices of food-grains ranged high throughout the year, and in the case of Chumparun, it is stated that they were much higher than they had been for some years past.

72. In the Bhagulpore Division there was at first every prospect of a bumper harvest, but the rainfall fell short just at the time when it was most wanted. From the middle of September to the end of the year the season was abnormally

dry. The cold season was of longer duration, and was more frequently marked by periods of low temperature than usual, owing, probably, to the dryness of the weather. The average estimated outturn of the crops in all the districts was:-

	Bhadoi.	Aghani.	Rabi.
	As.	As.	As.
Monghyr	7	6	7
Bhagulpore	10	7	6
Purneah	13	10	10
Maldah	16	4	14
Sonthal Pergunnahs	12	8	7

The prices of food-grains were generally higher owing to scanty harvests. The price of rice was particularly high, but the price of wheat in some places, notably in Maldah, was comparatively easier. The stocks of food-grains were sufficient to meet all demand.

73. In all the districts of the Rajshahye Division, except in Pubna and Julpigori, the rainfall was considerably below that of the preceding year; the fall was also less than the average of the five preceding years in all the districts except in Julpigori, where it was slightly in excess of the average. Owing to the scanty rainfall, the year was not one of agricultural prosperity. Regarding the prices of food-grains the Commissioner remarks:—

"The prices of rice in all the districts were higher than in the preceding year. The prices of pulses in all districts except Dinagpore and Rajshahye and of wheat in all districts except Pubna and Julpigori were also higher than in the preceding year."

74. The Commissioner of the Dacca Division reports that not only was the rainfall of the year very insufficient in all the districts of the division, but it was also very unequally distributed. Concerning the rice crops, he writes:—

"The rice crops were on the whole below the average in all districts. In Dacca a fair crop was harvested in the Moonshigunge sub-division, and about an average one in the Manickgunge sub-division; but in the suddor and Naraingunge sub-divisions it was a very poor one. In Furreedpore the outturn of the spring rice (*boro* and *jali*) and the autumn rice (*aus*) are reported to have been 3 annas and 10 annas, respectively, but that of the *amun* or the winter rice was 8 annas only. In Backergunge the *aus* failed to a large extent in the island of Dakhin Sahabazpore, and the *amun* crop was nowhere more than 12 annas, though in several places much less. In Mymensingh the outturn was also rather poor. The outturn of the winter crops was on the whole everywhere fairly good."

The price of rice rose throughout the division, chiefly in consequence of the large demands from other parts of the province.

75. As regards the Chittagong Division, the Commissioner states that the rains set in early in the district of Chittagong, and were very heavy. The yield of rice was, however, an average one. Both in Noakhally and Tipperah the weather was favourable, except during September and October when the rainfall was deficient. The insufficient fall caused a partial failure of the crops on high lands, but those on low lands more than compensated for the loss. There was a general rise in the price of rice, occasioned by a short outturn in other parts of the province.

76. Although the rainfall throughout the Orissa Division was not below the average of ordinary years, it was unequally distributed during the agricultural season. The growing paddy crop suffered in consequence, and the outturn, which was estimated at 10 annas, fell short of the favourable harvests of the few preceding years. The prices of rice showed no material rise, the slight rise which took place being due to larger exports, and to the poor outturn of the crops.

77. Regarding the Chota Nagpore Division, the Commissioner writes:—

"Owing to the excessive rain in July and August the *bhadoi* crops were damaged, especially in Loharduggah and Hazaribagh, while owing to the early cessation of the autumnal rains there was a more or less severe failure of the winter rice crops almost everywhere in the division, and more especially in pergunnah Chai and some parts of the Giridih sub-division in the Hazaribagh district, and pergunnah Tori and some parts of the

Lohardaggah thannah in the district of Lohardaggah. The *rabi* was either a total failure or yielded a very insufficient outturn owing to the want of rain in January and the beginning of February."

Except in Chaibassa, in the Singbhoom district, common rice sold everywhere in the division at a much higher rate than during any of the four preceding years. The rise in price was due to the partial failure of the crops and to larger exports owing to the deficient outturn in the surrounding districts.

78. In the Burdwan Division the rains began everywhere rather early, and in June, July, and August the fall was heavy. In September there was almost a total cessation, and during the following months there was a very scanty fall all over the division. The Commissioner writes:—

"The effect was of course not exactly the same everywhere, though, generally speaking, it may be said that, while the *aus* or early rice crop, of which only a small quantity is grown, escaped in most places, the *amun* or late rice, which is the staple crop of the country, suffered severely. The average outturn is thus estimated in the various districts:—

Hooghly and Howrah	6 annas.
Burdwan	5 „
Beerbhoom	8 „
Bankoora	9 „
Midnapore	9 „

"There were considerable stocks of rice and paddy in all the districts, and there is little doubt that these stocks were of great use in staving off actual scarcity. In fact in most places the people are living on them still; and if the present season should be unfavourable, there will be serious distress next cold weather, as the stocks of grain will have been very nearly all consumed. Prospects, however, are fairly good at present, and there is every reason to hope for a good season this year.

"In Hooghly, Howrah, and some parts of Burdwan the large amount of cold-weather crops has prevented the people from feeling distress. The potato and sugarcane crops in Hooghly have been exceedingly good, and the same may be said of minor grains. This has to a great extent compensated for the partial loss of the *amun* crop. In Beerbhoom and Bankoora, on the other hand, the cold-weather crops have not been successful."

The rise in the price of rice, as compared with 1882-83, was 4 seers $14\frac{1}{2}$ chittacks per rupee in Burdwan, 8 seers $\frac{1}{2}$ chittack in Bankoora, 5 seers 10 chittacks in Beerbhoom, 6 seers 4 chittacks in Midnapore, 4 seers $8\frac{3}{4}$ chittacks in Hooghly, and 3 seers $11\frac{1}{2}$ chittacks in Howrah. As regards these fluctuations the Commissioner writes:—

"It is at first sight surprising that the prices have not risen higher. The cause is, however, to be found in the large stocks of grain accumulated in most districts of the division owing to the excellent harvests of former years."

79. In all the districts of the Presidency Division the rainfall during the year was smaller than in the preceding year, and the crops consequently suffered more or less everywhere. In some districts apprehensions of scarcity were entertained, but were fortunately not realized. The price of rice, however, rose throughout the division, as will be seen from the following extract from the Commissioner's report,—

"The price of rice in the first part of the year was very nearly the same as in the year preceding, but it began to rise as soon as the autumnal rains fell short. In the 24-Pergunnahs the average prices of common rice ranged from $12\frac{1}{2}$ seers to 25 seers per rupee, against 16 seers to 32 seers per rupee in 1882-83; in Nuddea, from 16 seers to 20 seers 12 chittacks, against 18 seers to 32 seers per rupee; in Jessore from 14 seers to 27 seers per rupee, against 22 seers to 30 seers per rupee; in Khulna, from 13 seers 12 chittacks to 26 seers per rupee against 32 seers to 34 seers per rupee; and in Moorshedabad, from 14 seers to 24 seers per rupee, against 20 seers to 30 seers per rupee. There was no marked fluctuation in the price of other food-grains."

80. The statistics of the food-grain traffic of Calcutta during the past year showed a slight advance on the transactions of 1882-83, but a considerable falling off when compared with 1881-82. As regards the imports, the figures exhibit an increase of 2,22,777 maunds, or ·76 per cent. on the returns of 1882-83, and a decrease of 27,57,590 maunds, or 8·51 per cent. as compared with 1881-82. In the export trade there was an increase of 5,68,391 maunds, or 2·45 per cent. compared with the previous year, but a decrease of 15,63,921

maunds, or 6·18 per cent. compared with 1881-82. The details of the trade in each staple are given below:—

There was a satisfactory recovery in the wheat trade during the past year as compared with 1882-83, the rise in the imports having amounted to 53·42 per cent. and in the exports to 70·59 per cent. The Collector of Customs, Calcutta, remarks:—

"The extension of the Indian wheat trade to very large proportions is, I believe, merely a question of the opening out of suitable tracts of country by railways and of cheap carriage. It may be said to be fairly ascertaine now, that the price of wheat in the large markets up-country is substantially lower than the price at similar markets in the United States, while the quality of the wheat is good; in fact this price is so low that ultimately the bulk of the trade should be obtained by India.

"During the past year freights by sea from Calcutta have been very low, and owing to this and the reduction in the rate of railway carriage, mentioned in last year's report, exporters have been enabled to lay down their wheat in London at considerably cheaper rates than in the previous years, and so to compete on better terms with America. The larger trade of the past year is therefore a very good index of the effect of cheap carriage. Low freights, however, cannot always be expected, as the dearth of employment for vessels, which caused a large quantity of tonnage to be available at low rates, cannot be looked for every year.

"The importance of India as a competitor with the United States has forced itself very prominently upon the attention of the growers of wheat in the Western States, with the result that prices in Chicago are reported to be lower than they have been for twenty years. Low freights are also ruling, so that the competition has become very keen: but still India holds her own."

Imports.

85. The import trade showed an advance of 39,04,005 maunds on the trade of 1882-83, and of 4,25,817 maunds on that of 1881-82. The quantity sent to Calcutta by the East Indian Railway was 60·15 per cent. in excess of the imports by the same route during the preceding year. The increase in the imports by river routes was 18·06 per cent. The following table gives an abstract of the imports, province by province, during the past three years:—

The Collector of Customs, Calcutta, writes :—

"To the United Kingdom the increase is 64½ per cent. The harvest was better than for many and the prices lower than for some years, the average price for English wheat per quarter being 40*s.* 5*d.*, against 41*s.* 4*d.* in 1882-83, and 48*s.* in 1881-82, but still India has been able to supply a large proportion of the wheat imported into the United Kingdom, which is very satisfactory.

"The three principal competitors in this trade with the United Kingdom are, it will be seen, the United States, Russia, and India. From the first the receipts show a heavy decline, while from the two others there have been very substantial increases, Russia still occupying the second place notwithstanding the large increase in receipts from India.

Quantity not exported before the close of the year.

92. The total quantity of wheat not exported before the close of the year was 7,60,278 maunds, against 11,81,572 maunds in 1882-83, and 16,23,524 maunds in 1881-82.

GRAM AND PULSE.

93. The principal staples comprised under this head are *mutter*, *khesari*, *mushuri*, *maskalai*, *moog*, *boot* or *chhola*, and *urhur*. The total quantity of the Calcutta trade under this head during the past three years, is shown below :—

97. Of the marts on road routes, Baraset contributed 45,671 maunds, against 27,377 maunds in 1882-83, and 90,498 maunds in 1881-82. The next most important mart was Bussirhat, which supplied 16,353 maunds, against 12,862 maunds in 1882-83, and 39,003 maunds in 1881-82.

Principal marts on road routes.

98. The total quantity of gram and pulse exported during the year showed a decrease of 5·68 per cent. on the returns of 1882-83, but an advance of 3·59 per cent. on those of 1881-82. The exports by sea from Calcutta in those years were as follows:—

The result of the deficient outturn of the crops of the year under report has been a falling off in the rice trade of Calcutta, as compared with the two previous years. The Collector of Customs, Calcutta, writes:—

"The exports are still very large notwithstanding the fact that there was said to be a short crop and prices were substantially in advance of those of the previous year, so that the good prices probably more than counterbalanced the shortness of the crops. The shipments were less by half a million hundred weights than in the previous year, but the amount due from the consuming countries is over 6¾ lakhs of rupees more."

Imports.

101. It will be seen that the decrease last year in the import trade was 19·84 per cent. as compared with 1882-83, and 19·36 per cent. as compared with 1881-82. The decrease in the quantity of rice carried by country boats amounted to 18,60,468 maunds on the returns of 1882-83, and to 17,57,501 maunds on those of 1881-82. The imports by road routes showed a decrease of 6,84,778 maunds on the totals of 1882-83, and of 1,83,742 maunds on those of 1881-82. The East Indian Railway showed a falling off of 8,11,460 maunds as compared with 1882-83, and of 12,65,839 maunds as compared with 1881-82, while the traffic carried by the Eastern Bengal Railway showed a decline of 2,39,307 maunds and 5,46,177 maunds as compared with the two years 1882-83 and 1881-82, respectively. The supply imported by the Calcutta and South-Eastern State Railway was 2,18,337 maunds below the figures of 1882-83, and 2,48,001 maunds below those of 1881-82. The following statement shows the sources of this supply, province by province, together with the various channels through which the consignments were received during the past three years:—

The Collector of Customs, Calcutta, writes:—

"The decline to the United Kingdom was about 6 per cent., and this falling off from Calcutta has not been counterbalanced by larger exports from other ports in India, for the total shipments from India to the United Kingdom show a heavy decrease. There is always a considerable amount of uncertainty regarding the course the rice trade will take in the United Kingdom during any one year, and the past year has not been singular in this respect. It was generally supposed that there would be again large shipments with low prices, even after the rumours of short crops were circulated, and most millers held off at the beginning of the season These expectations were not realized, and later on they were compelled to pay higher prices than had they purchased earlier. Some millers and not a few speculators did buy early, and secured for themselves very profitable results. Generally, however, the year to importers in the United Kingdom has not been satisfactory."

Stocks of rice in Calcutta.

107. The stocks of rice at all the markets and warehouses of Calcutta in the first week of April of the past three years were:—

Paddy is not included in the foregoing statement. The total imports of paddy during the past year having been 15,53,920 maunds, and the total exports 2,97,334 maunds, there remained a balance of 12,56,586 maunds, which, at the rate of 25 seers to a maund of paddy, is equivalent to 7,85,366 maunds of rice. If this figure were added to the stocks of rice shown above, the total would be raised to 34,06,545 maunds, against 34,93,527 maunds in 1882-83, and 31,01,774 maunds in 1881-82.

MISCELLANEOUS SPRING AND RAIN CROPS.

108. The principal staples classed under this head are barley, *kado*, *shama*, Indian-corn, oats, and millets, which are reaped during the spring and rainy seasons. The total quantity of the Calcutta trade in these grains during the past three years, was as follows:—

Concerning the foreign trade, the Collector of Customs, Calcutta, writes:—

"The exports of raw hides have again advanced, these figures showing an increase of 15⅔ per cent. The demand in the bazar generally was fair, and the supplies not being at any time over large, they were readily sold at fairly steady prices. The advance shown is divided among all the countries taking supplies of raw hides from Calcutta, except France, there being substantial advances to Austria, Italy, the United Kingdom, and the United States."

Quantity not exported before the close of the year.

119. After deducting the exports from the imports, there remained a surplus of 82,381 pieces, against 1,353,569 pieces in 1882-83, and 687,896 pieces in 1881-82.

124. The total inland exports of salt from Calcutta were 5·07 per cent. below the figures of 1882-83, and 2·66 per cent. below those of 1881-82. The quantities carried by country boats formed 45·77 per cent. of the total trade, and showed a decrease of 85,247 and 3,78,460 maunds as compared with the two years, 1882-83 and 1881-82, respectively. The East Indian Railway returns showed a decrease of 3,41,897 maunds as compared with 1882-83, and an increase of 2,60,738 maunds as compared with 1881-82. The consignments by the Eastern Bengal Railway showed a decrease of 4,589 maunds as compared with 1882-83, and of 65,641 maunds when compared with 1881-82. The exports by inland steamers were 299 maunds in excess of those of the previous year, and only 4,775 maunds below those of 1881-82, while the road traffic showed a decrease of 3,359 maunds and 9,254 maunds, respectively The distribution of the exports is classified according to provinces in the following statement :—

137. There was an increase of 1,26,370 maunds in the quantity imported during the past year as compared with 1882-83, and of 2,07,094 maunds when compared with 1881-82. The increase in the quantity carried by the East Indian Railway amounted to 19·73 per cent. on the returns of 1882-83, and to 41·59 per cent. on those of 1881-82. The boat figures showed an increase of 3,762 maunds as compared with 1882-83, but they were below the trade of 1881-82 by 10,358 maunds. The following remarks are made by the Commissioner of the Patna Division concerning the saltpetre industry in the Mozufferpore and Durbhunga districts :—

Imports.

"That the manufacture is prosperous and rapidly extending its proportions is proved by the large increase in the quantities of crude saltpetre dissolved, refined saltpetre produced, and salt educed during 1883-84, immediately following similar large increases during the preceding year. It is also very satisfactory to find that prosecutions are rapidly decreasing, for the parties prosecuted are the miserable ignorant *nunias*, who, as their forefathers had always been in the habit of procuring a little edible salt out of the saltpetre pans, cannot easily be brought to understand that there is any harm in their acting as their forefathers have done. The saltpetre and sulphate of soda industries give employment to a large class of persons, who would otherwise constitute a burden on the land and would add to the severity of the struggle for existence in these densely-populated districts, and they should therefore be fostered and encouraged in every legitimate way."

The Collector of Customs, Calcutta, observes :—

"The United Kingdom receives the larger share of the exports of saltpetre from Calcutta, the shipments last year being considerably over one third of the entire exports, and showing an advance of about 64 per cent. The market was generally quiet, but with a fairly constant demand in the United Kingdom for this article during the year."

Quantity not exported before the close of the year.

141. The surplus of imports over exports amounted to 73,662 maunds, against 80,720 maunds in 1882-83, and 63,376 maunds in 1881-82.

LINSEED.

142. The total quantity of the Calcutta trade in linseed during the past three years, was as follows :—

Imports.

143. It will be seen that the imports during the past year were 12,64,958 maunds over the figures for 1882-83, and 15,36,273 maunds over those for 1881-82. The supply carried by the East Indian Railway was 9,49,417 maunds more than in 1882-83, and 20,37,457 maunds more than in 1881-82. The imports by country boats were 2,12,665 maunds in excess of the corresponding trade in 1882-83, and 5,78,313 maunds less than that of 1881-82. The increase in the consignments carried by the Eastern Bengal Railway amounted to 1,04,976 maunds on the returns of 1882-83, and to 1,01,613 maunds on those of 1881-82. The Collector of Customs, Calcutta, writes:—

"The largest share of this trade with the United Kingdom is still carried on *vid* Calcutta, but there has evidently been a considerable diversion of the trade to the other side of India, though freights from here have been exceptionally low during the past year. During one portion of the year there was a large demand for this seed, and prices advanced considerably. In the imports into the United Kingdom, India participated more largely than in previous years, owing to the falling off in the supplies from Russia, the only other country sending this seed in large quantities.

"Prices in the United Kingdom were low throughout the year, owing to a large extent to the good cotton seed crop and the large importations of rape seed, and it is said they would have fallen lower if it had not been for the demand that arose for shipment to America."

Quantity not exported before the close of the year.

147. Last year the surplus of imports over exports was 17,751 maunds. In 1882-83 the exports exceeded the imports by 1,60,845 maunds, while in 1881-82 the excess of imports over exports amounted to 4,24,145 maunds.

The Collector of Customs, Calcutta, writes:—

"To the United Kingdom the figures are the largest for many years, the advance in comparison with 1882-83 being 26¼ per cent. A large proportion of this export was probably intended for the continent of Europe, as a syndicate was formed in London, Paris, and Berlin to force up the price of rape-seed oil to very high figures. This object was achieved, and the prices of this oil were at one time very high, but they afterwards fell away very much. A large demand for rape-seed was caused by the high prices of the oil, and values largely advanced, until the oil market collapsed, when prices fell. This decline was afterwards recovered to a considerable extent."

153. The excess of imports over exports amounted to 6,62,564 maunds against 8,61,137 maunds in 1882-83, and 6,15,798 maunds in 1881-83.

155. A decrease of 1,113 maunds is observed in the quantity imported during the past year as compared with 1882-83, but when compared with 1881-82 there was an increase of 3,434 maunds. The following remarks illustrative of the condition of the silk

Imports.

industry in the interior of Bengal during the past official year, are taken from the divisional administration reports :—

Burdwan Division—"The manufacture of mulberry silk is on the decline in almost all the places where this industry is carried on. The "kutni," a mixed fabric of silk and cotton, produced in the towns of Bisoonpore and Sonamukhi, in the district of Bankoora, is still in demand in the North-Western Provinces and among Europeans. Rupees 70,000 worth was turned out during the year Gonotia is the principal seat of the silk industry in Beerbhoom. The Bengal Silk Company has its principal place of business there. The only available statistics of silk-spinning are those relating to the filatures of this company. The outturn of the year was 378§ maunds, worth Rs. 1,91,372, against 620 maunds, worth Rs. 3,86,650, of the previous year. The falling off is attributed to some extent to a corresponding decrease in the supply of cocoons, which varies according as the mulberry crop turns out well or ill. The company buy their cocoons from the local growers, and the supply fell short of the demand. The importation of foreign silk also prejudiciously affected this branch of the industry in all places where it is carried on. Silk fabrics of various kinds are made in parts of the Ghattal, Tumlook, and Sudder sub-division of Midnapore. Those manufactured at Radhanugger in Ghattal, are much in requisition for the use of ladies of the upper classes in the Punjab and Rajputana.

"An exhibition of cocoons was held in January last at Berhampore, under the auspices of the Collector of Moorshedabad, with a view to improve the quality of the article. The scheme being a new one it was found difficult to induce the cocoon-growers of this Division to send in exhibits. For those that were sent, 15 prizes of the value of Rs. 186 were awarded to the exhibitors from Beerbhoom."

Rajshahye Division—"The manufacture of silk is carried on only in Rajshahye and Bogra. In Rajshahye this trade gives employment to a large number of persons, "probably about 7,000;" but both the quality and quantity of silk appear to have fallen off of late. Three thousand and ninety-seven maunds of silk are reported to have been manufactured, chiefly for export This includes native manufacture. The experiment of breeding silkworms in the Rajshahye jail, mentioned in the report of the preceding year, has been abandoned as an expensive failure. About Rs. 3,000 worth of silk is said to have been manufactured in Bogra, chiefly for local use."

Bhagulpore Division—"The manufacture of *tussar* and *bafta* silk pieces in Bhagulpore, and of silk fabrics of Maldah, is gradually decaying. As regards the former, it is reported that formerly the quality was superior, but the tussar made in Bankoora and Midnapore is now better than the tussar made here The manufacture is confined to the town of Bhagulpore only, where there were during the year under report 880 looms. Last year only 300 looms were reported to have been in existence, I believe on uncertain data. The outturn is said to be 46,726 pieces, valued at Rs. 2,01,778 The industry is decaying in Maldah, because there is not a sufficient demand for the fabrics. It suffered particularly during the year under report owing to absence of rain and the extreme heat of the weather. It is said that in the late *Choitra bunda* the outturn was less than 4 annas on an average, entailing a loss of several lakhs of rupees. The bulk of the silkworms reared died, and those that survived yielded an inferior quality of cocoons. In Sonthal Pergunnahs and Monghyr tussar silkworms are reared to a limited extent, and the cocoons are mostly exported to Beerbhoom and Bhagulpore. In only a few places in the district cloth is manufactured"

Principal railway stations.

156. The railway stations from which raw silk was brought to Calcutta in large quantities during the past year were Damookdia in Nuddea, 5,896 maunds; Azimgunge in Moorshedabad, 3,476 maunds; and Mooraroe in Beerbhoom, 3,140 maunds.

The Collector of Customs, Calcutta, writes :—

" At one time in the year there were doubts regarding the outturn of the crop of both European and China silk, and our imports may have increased accordingly, but the uncertainty soon passed away, and the rise in price in London also soon disappeared. To the United Kingdom the advance is 175¾ per cent. After several years of neglect there has been a revival in the demand for Bengal silk in the London market, but the increased shipments of the past year have not all gone into consumption, for stocks in London showed a considerable increase at the end of 1883 in comparison with 1882."

Quantity not exported before the close of the year.

159. Last year the quantity exported was 2,033 maunds in excess of the quantity imported, against a surplus of 2,874 maunds in 1882-83, and 1,977 maunds in 1881-82.

Imports.

161. The imports of drained sugar during the past year were 11·86 per cent. below the trade of 1882-83, and ·30 per cent. below that of 1881-82. On the other hand, undrained sugar showed an advance of 28·80 and 20·04 per cent. as compared with 1882-83 and 1881-82, respectively. Compared with 1882-83, the boat traffic showed a decrease of 72,265 maunds under drained, but an increase of 46,774 maunds under undrained, sugar; the road traffic exhibited an advance of 56,430 maunds under drained, and of 87,469 maunds under undrained, sugar. The consignments of drained sugar by the East Indian Railway fell off from 1,09,597 maunds in 1882-83 to 73,209 maunds in 1883-84, while the figures under undrained sugar rose from 44,382 maunds to 70,661 maunds. In the figures of the Eastern Bengal Railway there was a slight decrease of 51 maunds under drained, but an increase of 30·53 per cent. under undrained, sugar, as compared with the preceding year. The total supply brought to Calcutta from each province is shown in the following statement :—

162. In the Presidency Division, the manufacture of sugar forms one of the most important industries in the districts of Nuddea, Jessore, and Khulna. Mr. Barton, the Collector of Jessore, writes :—

" The cultivators did not suffer much from the high prices of rice and the failure of the amun crop. They made a good deal out of their date trees. The winter season set in early,

and lasted longer than usual. The collection of date-juice was more abundant than it has been for many years, particularly in the sub-divisions of Jhenida and Jessore. A brisk trade in crude sugar supplemented the failure of the amun crop."

163. As regards the Rajshahye Division, sugar-cane turned out well in Dinagepore, Pubna, and Bogra; but in Rajshahye, although the area under cultivation was considerably extended during the year, the outturn was a little below the average. The Commissioner writes :—

"Molasses is largely made in Dinagepore, Rajshahye, and Rungpore, and exported in considerable quantities. It was by mistake reported by Mr. Ruddock in his report for 1882-83 that molasses is made in Rajshahye for "home consumption" only. It is now reported that molasses supplies the local demand and is "largely exported." Molasses made in Dinagepore supplies the demand of the district, and a small quantity is exported to the neighbouring districts. The exportation of cake-goor made from sugar-cane still continues, whilst liquid goor continues to be both made and imported. The manufacture of molasses is one of the principal industries in Nattore. It is largely made, and after supplying local demands is exported to Dacca, Serajgunge, &c. Mr. Newbury says that there may be a slight difference between the figures of the preceding year (5,33,320 maunds) and those of the year of report. The molasses made is partly exported to Eastern districts and partly consumed in the district. The area under cultivation is said to be about 26,666 acres. Molasses is manufactured on a small scale in Pubna, the cultivation of sugar-cane in the district being limited, as the soil is subjected to floods. The manufacture has made progress during the year. About 40,000 maunds are estimated to have been manufactured, of which about 20,000 maunds were exported to Dacca, Mymensing, and Furreedpore. The manufacture of molasses is carried on in thanas Sibgunge, Panchbibi, and Badalgachi in Bogra. About Rs. 10,000 worth is said to have been manufactured, of which a portion was exported. The extent of manufacture in Julpigoree and the Darjeeling Terai is small. A small quantity is exported from the former district, and the manufacture in the latter is for local use only.

"Sugar is manufactured to a small extent in Dinagepore, Bogra, and Julpigoree. A small quantity is exported from Bogra to the northern parts of the Rajshahye district, and a considerable quantity is said to be exported from Julpigoree."

164. The Commissioner of the Dacca Division reports that "sugar-cane is largely cultivated in Furreedpore, and the crop was on the whole a very fair one, both in quality and quantity; but in Backergunge it was below the average, while it was fairly good in Dacca."

165. The Commissioner of the Bhagulpore Division writes—

"The manufacture of crude sugar flourished during the year under report in every district. Messrs. Thomson and Mylne's cane-presses appear to be in great demand. The *goor* is exported both up and down the railway and the river. The Collector of Bhagulpore estimates the outturn in his district at 60,000 maunds of goor or molasses, the value of which at Rs. 4 a maund is Rs. 2,40,000, and 20,000 maunds of *chini* or coarse sugar at Rs. 9 a maund, value Rs. 1,80,000. These estimates fall short of the figures furnished last year, but they are guesswork, and do not in my opinion represent the actual state of affairs."

166. The following extracts give an account of the sugar industry in the Patna Division :—

Shahabad.—"There are 52 sugar-factories at Nasrigunge, which manufactured 20,552 maunds, valued at Rs. 1,44,321-12. The business of sugar manufacture was not prosperous during the year owing to the almost total failure of the sugar-cane crop by drought. A turbine is at work in Nasrigunge, and is reported to be prospering. Some merchants of that place have procured hand-turbine (centrifugal) from England for the purpose of manufacturing *rab* from a species of sugar-cane which is indigenous to a certain locality west of the town of Nasrigunge. The cost of the machine is reported at Rs. 500, and the outlay is the evidence of the enterprising spirit of those who have embarked in the business, and also of the competition which it commands."

Gya.—"A good deal of sugar is manufactured by cultivators all over the district. Even this industry seems this year to have somewhat fallen off."

Durbhunga.—"In this subdivision (Madhubani) the manufacture of sugar bids fair to be one of the most promising industries of the district. All the manufactories, the number of which is increasing every year, are managed by natives in their own method, and it is very doubtful whether any of the owners will ever be enterprising enough to adopt the European one. But in spite of this, it is expected that in a few years hence this industry will become a source of great wealth to the people. There are in all 29 sugar-factories in the Madhubani subdivision. The total quantity of sugar manufactured at these factories during the last year amounted to more than 12,000 maunds, the average value of which was about Rs. 9 per maund. About a third of this quantity was consumed in the district, and the remainder exported as an article of commerce."

Chumparun.—"The manufacture of sugar is confined to certain localities in the Bettiah subdivision. The outturn of sugar is estimated at 60,000 maunds, which at Rs. 10 per

maund represents a value of six lakhs of rupees. The bulk of the sugar is exported. The area under sugar-cane cultivation is 15,000 to 20,000 acres. The sugar industry is in a flourishing condition in this district. The area under sugarcane increases every year; the crop is becoming more and more of importance."

167. The following statement shows the principal districts whence the shipments were largest during the past year, the figures for the two previous years being also noted:—

168. The exports of drained sugar were 51,668 maunds in excess of the trade of 1882-83, and 1,67,837 maunds in excess of that of 1881-82. Under undrained sugar there was a decrease of 28,387 maunds as compared with 1882-83, and of 70,569 maunds as compared with 1881-82. The details of the sea-borne trade are shown in the following statement:—

There was a material advance of 46·29 per cent. in the exports of drained sugar to foreign countries during the past year as compared with 1882-83. The Collector of Customs, Calcutta, reports:—

"This increase is due to the larger shipments to the United Kingdom, the only country taking this article in quantity during the first four months of the year under review. The low prices of sugar here, comparatively high prices at home, and low freights, probably stimulated exports at the beginning of the year, but afterwards there was no special demand in the United Kingdom. Prices were low, and imports there were on a larger scale than for many years, owing to the large quantity of beet sugar imported from Germany, where the production of this kind of sugar has very largely increased. The production of beet sugar in that country is estimated at 925,000 tons for 1883-84, and it is probable that the maximum production has not yet been reached. A well-known firm of London brokers, in their annual remarks upon the sugar trade, write:—'In the face of these enormous figures the increase or decrease in the large cane-producing countries, such as Cuba, Java, the West Indies, and the Brazils becomes a matter of secondary importance.'"

169. If two-and-a-half maunds of undrained sugar be taken as equal to one maund of drained sugar, the total of the year's traffic amounted to 23,26,126 maunds of undrained sugar under imports, and to 14,09,845 maunds under exports. The surplus of imports over exports, therefore, amounted to 9,16,281 maunds against 9,52,819 maunds in 1882-83, and 10,58,135 maunds in 1881-82.

Quantity not exported before the close of the year.

TEA, INDIAN.

170. The total quantity of Indian tea imported into, and exported from, Calcutta during the past three years, was as follows:—

This statement shows that while the imports fell off during the year by 52,730 maunds or 4,338,897 lbs., the exports increased by 26,629 maunds or 2,191,454 lbs. Owing to the large outturn of the year's crop, the shipments showed an advance of 27,460 maunds or 2,259,730 lbs. The quality of the tea crop is stated to have been good, and according to the customs returns prices were slightly higher during the year, the average price of a pound having been 10 annas 10 pie against 10 annas 3 pie in 1882-83. The following extract is taken from the report of the Collector of Customs, Calcutta, for the year under report:—

"The advance in the total shipments amounts to nearly 4 per cent. with a recovery in the average price. The increase in quantity is due to new areas, principally in the Dooars and Sylhet, which were opened out a few years ago, coming into bearing, and it may be expected that for some time the yearly advance will be steady. It would have been larger last year but for the early setting in of the cold weather and the prevalence of blight.

"Ceylon tea has certainly obtained a hold upon the London market, for the quality of it is said to be quite equal to that of the best classes of Indian teas, and the prices obtained are most satisfactory A stimulus has no doubt been imparted to tea cultivation in Ceylon, and it is evident that though exports from this island are not at present very large, they will increase, and ultimately compete strongly with the Indian tea."

171. The condition of the tea industry in Bengal is explained in the Divisional Administration Reports as follows:—

Rajshahye Division.—"The apparent increase in the number of gardens in Darjeeling is due to the subdivision of old plantations, but in reality there was an increase of one plantation only.. The area of many existing plantations has been, and still is, on the increase. The deficient rainfall, the cholera outbreak and trouble in Nepaul, both affecting the labour supply, and the prevalence of mosquito blight in the lower hills and in the plains, are said to have combined to produce the diminished outturn.

"The higher prices ruling are attributed to failures in outturn elsewhere, including China, and to the prospect of serious trouble in that country.

"Want of rain early in 1881 created much anxiety, and at the close of the year of report it was feared that substantial damage had been done to the early crop"

Chittagong Division.—"In Chittagong there are 29 tea gardens. The total quantity of tea exported was 889,616lbs. against 1,030,927lbs. of the previous year. The outturn was affected by excessive rainfall, but prices were on the whole favourable."

Chota Nagpore Division.—"The tea industry has been making slow, but steady, progress. In Hazaribagh there has been an addition of 73 acres under mature plants, while in Lohardugga, leaving out of consideration three gardens which furnished no returns, the area under mature plants has arisen to 1,407 acres, against 924 in the previous year The outturn in the two districts rose to 107,762 and 249,364lbs respectively, against 93,510 and 196,781lbs. in 1882-83 and 76,665 and 131,409lbs. in 1881-82 The average yield per acre under mature plants has also increased, though slightly. In the Hazaribagh district, of all gardens the one at Sitagurah had the largest outturn, while that at Mandi was most productive, its average yield per acre being 151·8lbs.—a quantity never reached before by any garden in the district. In Lohardugga most of the gardens are said to have shown a considerable increase in their outturns, and only one garden is said to have shown a marked decrease, though the weather was on the whole rather unfavourable for tea. During the past year prices rose from one to two annas per pound above the average of 1882-83. In Manbhoom the Deputy Commissioner has not yet heard that any tea has been grown in the small plantation started near Dhadka, in pergunnah Burrabhoom, by Mr. Deveria. The plants were very small when he saw them in December."

Imports.

172. The import trade during the past year fell below the figures of 1882-83 by 52,730 maunds, but it showed an advance of 67,970 maunds on the returns of 1881-82. The quantity carried by inland steamers was 4·40 per cent. less than in 1882-83, but 20·40 per cent. in excess of the total of 1881-82. The traffic on the Eastern Bengal Railway showed a very large decrease of 15·34 per cent and 10·29 per cent. as compared with the two years 1882-83 and 1881-82, respectively, while the traffic on the East Indian Railway increased by 11·65 per cent. as compared with 1882-83, and by 116·49 per cent. as compared with 1881-82. 179. There was a considerable increase during the past year in the quantities carried to, and from, Calcutta. The Collector of Customs, Calcutta, writes:—

"There was a large crop with low prices last year, which of course would induce larger shipments. The principal cause, however, of the larger exports was a desire to take advantage of the rate of duty then ruling in Holland, as it was generally understood that this was to be raised. I have not been able to learn whether the duty actually was raised, but I think not, as there are now large stocks in Amsterdam and Antwerp."

180. In the Rajshahye Division, the principal cultivation of tobacco is in the Rungpore district where it forms one of the chief staples of export. During the year under report a brisk trade in it was carried on by Burmese and up-country men. The price varied from Rs. 6 to Rs. 8 per maund.

181. Tobacco is said to have done well in the Durbhunga district. The Commissioner of the Patna Division writes:—

"Tobacco is one of the most important manufactures of the district. Its cultivation is a very profitable business, the net income per bigha after paying all expenses sometimes rising to even more than Rs 50; but with the exception of the factory at Poosah under Messrs. Begg, Dunlop, there are no other places in the district where tobacco is a great and rising manufacture. Of the tobacco factory at Poosah, the Collector gives the following information:—

The manufactory at Poosah has been established by Messrs. Begg, Dunlop and Company, a European firm, that has taken the lease of the Poosah estate belonging to the Government, and are manufacturing tobacco in the regular scientific European method. The area of the Poosah estate is about 1,184 bighas, of which about 300 bighas are under tobacco cultivation. Messrs. Begg, Dunlop and Company carry on this cultivation themselves, and then manufacture the produce in the manner mentioned above. I glean the following facts and figures regarding this manufacture from the report of the subdivisional officer, Tajpore, within whose jurisdiction the factory is situated.

There were, it is said, 91,080 hajeerees of servants—coolies employed during the year—51,050 of thika coolies, 720 of blacksmiths, 2,880 of carpenters, 5,400 of farm ploughs, 7,200 of farm carts, and 1,800 of thika carts. The figures for the two previous years were 61,500 and 86,000 hajeerees of coolies. This shows how much increased employment is given by the factory each year. The native establishment consists of two English writers, one munshi, two jemadars, two zilladars, five mates, two peons, and six chowkidars. There is an American manager with one assistant. The pay for several coolies is from Rs. 3 to Rs. 3-8 per month, boys from Rs. 2 to Rs. 3. Thika coolies (men) two annas per day, boys five to seven pice per day, and thika carts four to five annas. The quantity of land under tobacco cultivation is zerait 50 bighas. The estimated yield per bigha is 700lb. of chipping and 100lb of refuse. The estimated yield for the preceding season was 600lb. per bigha. The cost of production per bigha varies from Rs. 20 to Rs. 100 according to the quality of tobacco. The number of pounds of cavendish selling at nine annas per pound was 90,000 as against 60,000lb. selling at seven annas per pound last year. The quantity of smoking mixtures selling at from 14 annas to Rs. 2 per pound was 27,000lb. against 24,000lb selling at an average of Re. 1; that of cigarettes selling at Re. 1 per 100 was 1,000,000lb. as against 3,000lb. selling at Rs. 2 per pound. That of cheroots was 1,000,000 selling at Rs. 9 per 1,000 as against 20,000lb. selling at 12 annas per pound. The quantity of raw leaf shipped to England and other countries of Europe was 111,219lb. as against 2,000lb. The business of the firm is promising, and they expect to meet with good success in the future."

182. From Mozufferpore the Collector writes:—

"Hajeepore subdivision is the principal place for export of tobacco, and there the plant is cultivated on an extensive scale, but the exports fell off from 1,55,364 maunds to 1,04,100 maunds, and this is due to the fact that the tobacco which was formerly brought to Hajeepore from Durbhunga and Tajpore for export to the North-Western Provinces is now exported by the Tirhoot State Railway direct. The quantity exported from the sudder subdivision amounted to 45,568 maunds. Thus the total export from the district during the past year amounted to 1,49,668 maunds, against 1,76,364 maunds in the preceding year."

Imports.

183. It will be seen that the increase last year in the import trade was 1,29,301 maunds, or 19·89 per cent. as compared with 1882-83, and 1,64,833 maunds, or 26·80 per cent. as compared with 1881-82. The supply carried by the Eastern Bengal Railway amounted to 43·10 per cent. of the total trade, and was 31,752 maunds in excess of the

quantity carried during 1882-83. The traffic by road showed an advance of 52·49 per cent., and that carried by country boats of 11·96 per cent. The following comparative statement shows the imports from the several provinces, during the past three years:—

186. The principal marts on road routes which supplied large quantities during the past year were Baraset, 1,11,041 maunds; Bongong, 43,660 maunds; Ranaghat, 29,273 maunds; and Gurreah, 12,486 maunds.

Exports.

187. In the export trade there was an increase of 1,75,077 maunds as compared with 1882-83, and of 1,90,721 maunds as compared with 1881-82. The distribution of the sea-borne trade was as follows:—

It is stated that the shipments to the United Kingdom are not intended for consumption in that country, the bulk being transhipped to Holland or France.

Quantity not exported before the close of the year.

188. After deducting the exports from the imports, there remained a surplus of 1,83,618 maunds, against 2,29,394 maunds in 1882-83, and 2,09,506 maunds in 1881-82.

INLAND TRADE OF CHITTAGONG.

189. The following statement shows the total quantity of the inter-local boat traffic of the Chittagong port during the past three years:—

	1981-82.	1882-83.	1883-84.
	Mds.	Mds.	Mds.
Imports	23,71,680	28,08,852	19,22,906
Exports	3,43,298	4,56,512	4,71,905
Total ...	27,14,978	32,65,394	23,94,811

The decrease in the aggregate quantity of goods registered was 26·66 per cent. as compared with the preceding year, and 11·79 per cent. as compared with 1881-82. The falling off was mainly in the import trade; and the most noticeable items which contributed to the decrease in the year's traffic as compared with 1882-83 were rice (6,72,675 maunds), paddy (1,26,150 maunds), and firewood (79,968 maunds). The export trade, however, showed an increase of 3·36 and 37·16 per cent. as compared with the two previous years, respectively. The chief staples in which there was an increase as compared with 1882-83 were piece-goods, bamboos, timber, oils, brass and copper, and mustard seed; and the articles in which the largest decrease occurred were raw cotton, fibrous products, salt, spices, and tobacco.

190. The total value of the inland trade during the past three years, as compared with the sea-borne trade in those years, is shown below:—

		Imports.	Exports.	Total.
		Rs.	Rs.	Rs.
Inland trade	1881-82	47,18,614	14,08,309	61,26,923
	1882-83	61,51,334	11,15,629	75,66,963
	1883-84	58,82,768	13,98,815	72,81,613
Sea-borne trade	1881-82	89,99,777	98,63,697	1,88,63,474
	1882-83	1,12,96,793	1,23,63,497	2,36,60,290
	1883-84	1,16,99,073	1,30,57,055	2,47,56,728

As compared with 1882-83, the decrease in the total value of the inland trade was 4·76 per cent. under imports, and 4·88 per cent. under exports; but in the sea-borne trade the money value of the imports and exports showed an advance of 3·57 per cent. and 5·61 per cent., respectively. Concerning the export trade with foreign ports, the Commissioner of the Chittagong Division observes that "the increase in value is sustained in all the principal articles of export, but that in all articles, except tobacco, there was a decrease in the quantity exported. The deficiency in supply was, as is often the case, compensated for by a more than corresponding rise in the price of produce."

191. *Caoutchouc.*—The total value of caoutchouc exported from Chittagong by sea-going vessels amounted to Rs. 10,443, against Rs. 8,430 in 1882-83, and Rs. 27,439 in 1881-82. The Deputy Commissioner of the Chittagong Hill Tracts reports that "the export of rubber is steadily decreasing, for the trees have been destroyed by over tapping."

192. *Cotton, raw.*—The quantity of raw cotton exported from Chittagong by country boats was only 1,067 maunds, against 8,118 maunds in 1882-83, and 4,648 maunds in 1881-82, while according to the coasting trade returns, the total value of the exports was Rs. 1,81,730, against Rs. 3,01,283 in 1882-83, and Rs. 3,69,499 in 1881-82. The amount of raw cotton shipped for Naraingunge from this port was as follows:—

	By country boats.	By sea-going vessels.	Total.
	Mds.	Mds.	Mds.
1881-82	4,030	53,480	57,510
1882-83	6,980	46,141	53,121
1883-84	640	22,676	23,316

The cotton exports were unfavourably affected by the failure of the crop.

193. *Cotton twist and yarn, European.*—The total imports into Chittagong by coasting vessels amounted in value to Rs. 2,24,313, against Rs. 2,18,974 in 1882-83, and Rs. 2,34,143 in 1881-82.

194. *Cotton piece-goods, European.*—This trade is steadily increasing, the value of the imports having amounted to Rs. 17,04,789, against Rs. 16,52,185 in 1882-83, and Rs. 16,01,735 in 1881-82. The total value of these goods exported by country boats to the interior of Chittagong amounted to Rs. 3,14,871, against Rs. 2,95,573 in 1882-83, and Rs. 1,82,589 in 1881-82. The increase during the past year is stated by the Collector of Customs to be due to preference having been given to these goods on account of their cheapness in comparison with those manufactured in the country.

195. *Jute, raw.*—The total quantity of raw jute imported by coasting vessels from Naraingunge was 14,81,976 maunds, against 16,22,714 maunds in 1882-83, and 8,81,693 maunds in 1881-82, the falling off being due to the deficient outturn of the year's crops and to the high prices which prevailed. The amount of raw jute shipped for England from this port showed a decrease of 1,15,268 maunds on the figures for 1882-83, but an increase of 6,13,993 maunds on those for 1881-82, as detailed below:—

Exports to the United Kingdom from Chittagong.

	1881-82.	1882-83.	1883-84
Quantities in Cwts.	613,471	1,149,257	1,064,570
Ditto in Mds.	8,35,005	15,64,266	14,48,998

The only noteworthy feature during the year was the establishment of a new branch of trade with New York entirely in jute-cuttings, the value of which is stated to have been Rs 4,85,245.

196. *Gunny-bags.*—The total value of the import trade by coasting vessels under this head was Rs. 1,81,473, against Rs. 1,75,463 in 1882-83, and Rs. 2,61,792 in 1881-82. Last year most of the vessels from Chittagong cleared for home ports with grain stowed in bags.

197. *Rice and Paddy.*—The total quantities of rice and paddy imported into Chittagong by country boats during the past three years, were:—

	1881-82.	1882-83.	1883-84.
	Mds.	Mds	Mds
Rice	14,37,987	18,68,827	11,96,152
Paddy	6,20,820	5,75,266	4,19,116

The Collector remarks that the decrease under this heading "is accounted for by large quantities of husked and unhusked rice having been deflected to Behar and Silchar to meet the exigencies of those marts owing to partial failure of the crops of those districts." The principal marts which contributed largely to the past year's supply were:—

The surplus of imports by country boats, over exports by sea, to foreign countries during the past three years, was:—

		1881-82.	1882-83.	1883-84.
Rice	Cwts.	222,080	596 068	214,866

198. *Hides and skins.*—The total value of the export trade by coasting vessels under this head was Rs. 2,57,105, against Rs. 2,35,734 in 1882-83, and Rs. 2,08,889 in 1881-82.

199. *Oils.*—The total value of oils imported into Chittagong by sea-going vessels amounted to Rs. 1,45,886, against Rs. 1,20,121 in 1882-83, and Rs. 1,61,078 in 1881-82. The supply imported by country boats during the past year was 12,983 maunds, against 11,614 maunds in 1882-83, and 6,956 maunds in 1881-82. Out of the former quantity, 8,976 maunds were shipped from Calcutta.

200. *Salt.*—The total quantity of salt imported into Chittagong by sea was 4,16,267 maunds, against 2,83,302 maunds in 1882-83, and 3,76,380 maunds in 1881-82. The increase is explained by the Collector to be due to the "exigencies of a fast growing vigorous trade, and is consequent on reduced stocks at commencement of the year under review." The amount of salt exported by country boats was 2,15,638 maunds, against 2,18,064 maunds in 1882 83, and 2,05,880 maunds in 1881-82, and was distributed thus:—

	1881-82. Mds.	1882-83. Mds.	1883-84. Mds.
To Chittagong	1,69,626	1,86,151	1,86,994

„ Other districts	3,616	1,928	2,750
Total ..	2,05,880	2,18,064	2,15,638

In addition to the above quantities, the amount of salt exported to Narainгunge by coasting vessels was 2,48,860 maunds, against 1,71,278 maunds in

1882-83, and 1,24,153 maunds in 1881-82. The large clearances for Naraingunge during the past year were due to the permission granted to certain firms to remove salt to that port without paying duty for it till its arrival there.

201. *Sugar.*—The total quantities of drained and undrained sugar imported into Chittagong by country boats during the past three years, were as follows:—

	1881-82.	1882-83.	1883-84.
	Mds	Mds.	Mds.
Drained sugar	937	3,863	3,200
Undrained sugar	21,532	36,491	36,414

There is very little change in the quantities imported during the past two years. Undrained sugar was for the most part consigned from Calcutta. Small quantities were also imported from Naraingunge and from Keshubpore in the district of Jessore. The value of sugar imported by seagoing vessels was Rs. 81,180, against Rs. 89,546 in 1882-83, and Rs. 79,876 in 1881-82.

202. *Tea, Indian.*—The total quantity of Indian tea exported from Chittagong by coasting vessels was 888,815 lbs, against 1,029,973 lbs in 1882-83, and 809,424 lbs in 1881-82. The quantity of tea sent direct to the United Kingdom was very small, namely, 786 lbs, against 954 lbs in 1882-83, and 975 lbs in 1881-82.

203. *Tobacco.*—The total value of tobacco imported into Chittagong by coasting boats amounted to Rs. 1,54,894, against Rs. 70,913 in 1882-83, and Rs. 1,23,705 in 1881-82. The large increase last year is stated by the Collector to be due to the failure of the local harvest. The amount of tobacco imported from Naraingunge during the past three years, was as follows:—

	By country boat.	By sea-going vessels.	Total.
	Mds.	Mds.	Mds.
1881-82 . ..	488	12,216	12,704
1882-83	1,996	6,687	8 683
1883-84	1,192	25,042	26,234

The quantity of tobacco shipped for foreign ports was 70,136 lbs, against 30,353 lbs in 1882-83, and 19,002 lbs in 1881-82.

The increase in the total value of the trade registered during the past year was 21·82 per cent. as compared with 1882-83, and 25·25 per cent. as compared with 1881-82. The value of the imports rose from Rs. 59,99,026 in 1881-82, to Rs. 54,96,242 in 1882-83, and Rs. 74,95,108 in 1883-84, while the value of the exports increased from Rs 68,41,361 in 1881-82, to Rs. 77,04,751 in 1882-83, and Rs. 85,87,718 in 1883-84. Compared with 1882-83, the trade of Balasore showed an increase of 24·36 per cent. under imports, and of 3·50 per

cent. under exports. In Cuttack the increase under imports was 298·51 per cent. and under exports 13·39 per cent., while the figures of Pooree showed an advance of 817·5 per cent. under imports, and 97·04 per cent. under exports.

205. As regards Balasore, the large increase in the imports is due to an expansion of traffic both in foreign and native produce. The Collector remarks:—"It seems to me impossible to look at this large increase in the imports of comforts and luxuries without being convinced that the people are not only prospering and growing rich, but are beginning to understand that money can raise their standard of life and its comforts." The increase in the export traffic was wholly due to the remarkable increase in the trade in rice and paddy.

206. In Cuttack, the increase in the value of imports was owing chiefly to the omission of the value of opium from the returns of 1882-83, and in part to the appearance in the year's returns of some important articles which had no place in those of the previous year. The increase in the export trade was due partly to the development of the rice trade, and partly to the inclusion in the returns of some articles which were rescued from the wreck of the steamer *Chinsura*, and shipped to Calcutta.

207. The increase in the import trade of Pooree was due to a large supply of treasure and gunnies, the former for purchasing rice for export, and the latter for packing it, while the advance in exports was, as in the previous year, chiefly owing to the brisk trade in rice, of which large quantities were sent to both foreign and coasting ports.

208. The following statement shows the direction of the trade of those ports during the past three years.—

The Customs Officer of Chandbally writes —

"The trade in mule twist (English) has, I believe, fallen off owing to the small demand of the finer kind of twist The Indian twist of Nos 10, 12, 14, 16, and 20 has increased somewhat this year, and seems to be in great demand and get a good market, being coarser in texture and somewhat cheaper, and is largely used for weaving country cloth, which is steadily progressing and improving and is worked by hand-loom The main portion of the twist goes into the Cuttack district, and a little remains in the Balasore district."

212. *Cotton piece-goods.*—The total amount of European piece-goods registered during the year was valued at Rs. 10,19,000, against Rs. 9,38,190 in 1882 83, and Rs. 10,68,458 in 1881-82. The value of Indian piece-goods imported during the year was Rs. 8,942, against Rs. 13,209 in 1882-83, and Rs. 2,871 in 1881-82.

213. *Gunnies*—The number of gunny-bags imported was 2,156,858, against 1,402,879 in 1882-83, and 718,694 in 1881-82. The increase is the direct result of the enormous expansion of the rice trade.

214 *Metals.*—This trade rose from 24,338 maunds in 1881-82 to 27,743 maunds in 1882-83, and 37,617 maunds in 1883-84. Last year hardware, machinery, and metals were largely imported in connection with the coast canal.

215. *Ghee*—The total trade amounted to 1,423 maunds, against 1,217 maunds in 1882-83, and 3,295 maunds in 1881-82.

216. *Oils.*—The total quantity imported was 24,950 maunds, against 17,167 maunds in 1882-83, and 13,523 maunds in 1881-82.

217. *Spices.*—The total imports of spices amounted to 20,869 maunds, against 5,621 maunds in 1882-83, and 7,014 maunds in 1881-82.

218. *Betel-nuts.*—There was a large increase in this trade, the total quantity having been 59,645 maunds, against 41,411 maunds in 1882-83, and 44,867 maunds in 1881-82.

219. *Tobacco.*—The figures of the past year show an increase of 6,544 maunds as compared with 1882-83, and of 5,674 maunds as compared with 1881-82. The details are given below :—

220. *Treasure.*—The total trade under this head amounted in value to Rs. 9,11,030, against Rs. 2,84,475 in 1882-83, and Rs. 3,31,448 in 1881-82. The increase of Rs. 6,26,555 during the year was due to the imports into Balasore and Pooree having been 4½ and 1½ lakhs respectively in excess of the figures of 1882-83. The increase was the direct result of the advance in the trade of the year.

221. The principal articles exported from Orissa during the past three years are shown in the following statement :—

The increase in the exports of rice aggregated 8,58,133 maunds, or 41·94 per cent., as compared with 1882-83, and 16,67,716 maunds, or 134·88 per cent., as compared with 1881-82. The exports of paddy amounted to 49,397

maunds against 84,239 maunds in 1882-83, and 49,385 maunds 1881-82. The Collector of Balasore writes:—

"Nothing like the food exports of this year have been known for a dozen years past, and it occurred simultaneously with an increase of 100 per cent. in the foreign export of the same articles. The exportation only began to any great extent after the rainy season had proved unfavourable, and after it was very well known that the crops would perhaps not be more than a 10-anna harvest. It shews conclusively, I think, that the people who in the face of these circumstances nevertheless exported an exceptionally large quantity of food, were under no apprehension whatever about the comparative failure of the harvest, and must have felt perfectly safe in the possession of a very considerable superfluity of food. It cannot be reasonably supposed that they have deprived themselves of any part of their surplus stocks that might be necessary for themselves. I think we have every reason to feel secure about Balasore in the matter of food supply."

The Collector of Cuttack remarks:—

"The slight decrease of import duty on liquors is more than covered by the increase of export duty on rice, which is the chief staple of commerce in this district, and with the improved means of communication afforded to the people by extension of village roads and their connection with the main canals, the surplus produce of the district finds easy exit to other countries whither higher prices may attract the currents of trade."

The destination of the exports of rice and paddy, port by port, during the past three years, was as follows:—
